Sentencing Guidelines in the Federal Courts Government Printing Office

For two centuries, federal judges exercised wide discretion in criminal sentencing. In 1987 a complex bureaucratic apparatus termed Sentencing "Guidelines" was imposed on federal courts.

FEAR OF JUDGING is the first full-scale history, analysis, and critique of the new sentencing regime,

arguing that it sacrifices comprehensibility and common sense.

Hearings Before the Subcommittee on Criminal Justice of the Committee on the Judiciary, House of Representatives, One Hundredth Congress, First Session on Sentencing Guidelines, May 12 ; June 11, 16 ; July 15, 22, 23, and 29, 1987 Government Printing Office

Sentencing Policies and Practices in the 21st Century focuses on the evolution and consequences of sentencing policies and practices, with sentencing broadly defined to include plea bargaining, judicial and juror decision making, and alternatives to incarceration, including participation in problem-solving courts. This collection of essays and reports of original research

explores how sentencing policies and practices, both in the United States and internationally, have evolved, explores important issues raised by guideline and non-guideline sentencing, and provides an overview of recent research on plea bargaining in the United States, Australia, and the United Kingdom. Other topics include the role of criminal history in sentencing, the past and future of capital punishment, strategies for reducing mass incarceration, problem-solving courts, and restorative justice practices. Each chapter summarizes what is known, identifies the gaps in the research, and discusses the theoretical, empirical, and policy implications of the research findings. The volume is grounded in current

knowledge about the specific topics, but also presents new material that reflects the thinking of the leading minds in the field and that outlines a research agenda for the future. This is Volume 4 of the American Society of Criminology's Division on Corrections and Sentencing handbook series. Previous volumes focused on risk assessment, disparities in punishment, and the consequences of punishment decisions. The handbooks provide a comprehensive overview of these topics for scholars, students, practitioners, and policymakers.

An Abridged and Annotated Version of the United States Sentencing Commission Sentencing Guidelines Manual

Government Printing Office
The focus of this report is the 25,431 U.S. citizen federal

offenders released from prison or placed on probation in calendar year 2005.

Recidivism refers to a person's relapse into criminal behavior, often after the person receives sanctions or undergoes interventions for a previous crime. Recidivism is typically measured by criminal acts that resulted in the re-arrest, re-conviction, and/or re-incarceration of the offender over a specified period of time.

Recent developments, particularly public attention to the size of the federal prison population and the cost of incarceration have refocused the Commission's interest on the recidivism of federal offenders. This report takes into account chapters four and two of the Guidelines Manual (ISBN: 9780160934896) in establishing the Commission's methods for evaluation. Scoring points for evaluation of the study group, and criminal history category identification.

The Appendix comprised of tables and figures section offers the Study group's offender race, median age, re-conviction rates, re-incarceration rates, offenses categories, and more. This report discusses the federal mandatory minimum sentencing statutes, that limits the discretion of a sentencing court to impose a sentence that does not include a term of imprisonment or the death penalty. The United States Sentencing Commission's Mandatory Minimum Penalties in the Federal Criminal Justice System (2011) recommends consideration of amendments to several of the statutes under which federal mandatory minimum sentences are most often imposed.

Reyes Federal Sentencing the Basics This paper provides an overview of the federal sentencing system. For historical context, it first briefly discusses the evolution of federal sentencing during the past four decades, including the landmark passage of the Sentencing Reform Act of 1984 (SRA),¹ in which Congress established a new federal sentencing system based primarily on sentencing guidelines, as well as key Supreme Court decisions concerning the guidelines. It then describes the nature of federal sentences today and the process by which such sentences are imposed. The final parts of this paper address appellate review of sentences; the revocation of offenders' terms of probation and supervised release; the process whereby the United States Sentencing Commission (the Commission) amends the guidelines; and

the Commission's collection and analysis of sentencing data.
