A woman ' s true story of rebuilding her faith in the aftermath of harrowing tragedy. In the early hours of March 7, 1999, Justina Page ' s life changed forever when a four alarm house fire ravaged and destroyed her family ' s home. In the aftermath, in addition to the heartbreaking loss of one of her 22-month-old twin boys, Justina and her husband had to cope with the physical injuries to both her and their surviving son. The Circle of Fire chronicles her struggle to overcome the devastating consequences of this catastrophic event. Justina ' s is a journey of discovery—that personal tragedy is not a life sentence to despair, anger, and continual pain and suffering, and that something positive can be salvaged from every agonizing experience, even when your faith has truly been tried by fire.

From the award-winning author of Altered Carbon and Broken Angels – a turbocharged new thriller set in a world where killers are stars, media is mass entertainment, and freedom is a dangerous proposition . . . A coup in Cambodia. Guns to Guatemala. For the men and women of Shorn Associates, opportunity is calling. In the superheated global village of the near future, big money is made by finding the right little war and supporting one side against the other – in exchange for

a share of the spoils. To succeed, Shorn uses a new kind of corporate gladiator: sharp-suited, hard-driving gunslingers who operate armored vehicles and follow a Samurai code. And Chris Faulkner is just the man for the job. He fought his way out of London ' s zone of destitution. And his kills are making him famous. But unlike his best friend and competitor at Shorn, Faulkner has a side that outsiders cannot see: the side his wife is trying to salvage, that another woman – a porn star turned TV news reporter – is trying to exploit. Steeped in blood, eyed by common criminals looking for a shot at fame, Faulkner is living on borrowed time. Until he ' s given one last shot at getting out alive. . . .

In this important new collection, leading scholars in nineteenth-century American culture re-examine the vexed subject of sentimentality. These essays draw upon a range of interdisciplinary approaches to situate sentimentality in terms of "women's culture" and issues of race, before and after the Civil War. Moving beyond the canonical debates about sentimentality, the collection makes visible the particular racial and gendered forms that define the aesthetics and politics of the American culture of sentiment. The contributors use evidence from American cultural history, American studies, and literary criticism, to examine the process by which nineteenth-century American culture was both produced and contested. They present incisive readings of scenes like an antebellum murder trial, the erotic attention audiences paid to the statues of Hiram Powers, and the engravings of Godey's Ladies Book. In addition, they

use the writings of Harriet Jacobs, Mark Twain, James Fenimore Cooper, Pauline Hopkins, W.E.B. DuBois, and Harriet Beecher Stowe, to question the political fables immanent in this literature. More generally, they portray nineteenth-century American sentimentality as a national project – a project about imagining the nation's bodies and the national body. With essays by Lauren Berlant, Ann Fabian, Susan Gillman, Karen Halttunen, Carolyn L. Karcher, Joy Kasson, Amy Schrager Lang, Isabelle Lehuu, Harryette Mullen, Dana Nelson, Lora Romero, Shirley Samuels, Karen Sanchez-Eppler, Lynn Wardley, and Laura Wexler, The Culture of Sentiment significantly reorients the field of nineteenth-century American literature, art, culture, and history. It will be of keen interest to those concerned with women's studies, American studies, cultural studies, African-American studies, and American history and literature.

The Many Deaths of Tsar Nicholas II
University of Texas Press
In the spring of 1983, a North American couple who were hoping to adopt a child internationally received word that if they acted quickly, they could become the parents of a boy in an orphanage in Honduras. Layers of red tape dissolved as the American Embassy there smoothed the way for the adoption. Within a few weeks, Margaret Ward and

Thomas de Witt were the parents of a toddler they named Nelson—an adorable boy whose prior life seemed as mysterious as the fact that government officials in two countries had inexplicably expedited his adoption. In *Missing Mila, Finding Family*, Margaret Ward tells the poignant and compelling story of this international adoption and the astonishing revelations that emerged when Nelson's birth family finally relocated him in 1997. After recounting their early years together, during which she and Tom welcomed the birth of a second son, Derek, and created a family with both boys, Ward vividly recalls the upheaval that occurred when members of Nelson's birth family contacted them and sought a reunion with the boy they knew as Roberto. She describes how their sense of family expanded to include Nelson's Central American relatives, who helped her piece together the lives of her son's birth parents and their clandestine activities as guerrillas in El Salvador's civil war. In particular, Ward develops an internal dialogue with Nelson's deceased mother Mila, an elusive figure whose life and motivations she tries to understand.

Debates and Proceedings of the Constitutional Convention of the State of California, Convened at the City of Sacramento, Saturday, September 28, 1978 Dr. Freeman Rader

Scousers believe they live in a special place, one that has more in common with Salvador da Bahia, New Orleans or Gdansk than anywhere in England, and the city has always punched above its weight. In less than a hundred years, however, Liverpool's image has declined from a major mercantile player known as the Second City of the Empire to what some social commentators have described as a cultural backwater remembered largely as the place where the Beatles were born. In *Liverpool: The Hurricane Port*, Andrew Lees reveals how Liverpool's pre-eminence in the slave trade left an indelible scar on the psychogeography of the city. He also explores the roots of Liverpool's contrary nature, its rebelliousness and its hedonism, as well as some of the recent hurricanes that have battered the city, including the anger of Toxteth, the Hillsborough disaster and the murder of James Bulger. In this distinctly personal account, Lees defines the characteristics of this Celtic enclave, with her loudmouthed, big-hearted people who have created a city quite different from anywhere else in the world.

“The” Athenaeum Archway Publishing This very large 465 page book is actually 2 separate but closely related books bound together as one — an inspirational novel and a thought-provoking philosophy book.

Together they tell the story of a bold and visionary group of people creating a highly advanced prototype community and way of life based upon applying a philosophy that believes in human potential rather than supernatural forces, helps individuals self-actualize, promotes values and responsibility for SELF, SOCIETY, & ENVIRONMENT; and creates harmonious communities in which human potential flourishes. This results in happy people doing great things and achieving a tremendous sense of enjoyment and accomplishment in the process (something we all seek). As the story unfolds, a bright progressive group of people in Colorado adopt this new philosophy, become part of the Potentialist Movement, and focus on how to fund and develop this highly advanced community. To meet the challenge, the founder (Freeman Valor Smith) convinces the Hollywood producer (Steven Spielman) that the story would make a good film, thus ingeniously getting the producer to make the development of the project possible by funding its construction as part of the cost of production. So the project gets underway. But the powerful editor of the local newspaper (Norman Sully) has a deep grudge against the founder and plans to totally disrupt the group's efforts — so he hires an attractive undercover reporter (Serene St. Haven) to infiltrate the group and dig up as much dirt as possible. But a romance ensues between the reporter and the founder that changes the situation dramatically. So the editor takes drastic measures on his own to sabotage the project. What results is an intricate web of romance, treachery, intrigue, and inspiration. With great courage, this resourceful group of Potentialists overcomes all obstacles and a BOLD NEW WORLD is created which shows what people with the right values in the right environment can accomplish.

The Price of Exclusion Morgan James Publishing A writer, lecturer, and community activist, Zipper was principal of the Jewish Peretz School from the 1920s until his death. From the time she could barely see over the space bar of her old manual typewriter, to writing her popular southern culture blog, *Folkways Nowadays*, author Audrey McDonald Atkins has been sharing her downhome stories and essays about life in the South. In *They Call Me Orange Juice*, Atkins provides a nostalgic, poignant, and often-hilarious look at growing up in a small South Alabama town and how that upbringing still influences her today. What does it feel like to be the only Episcopalian at a Baptist church? How do you entertain yourself on a two-hour car trip with a dead man? What do you do when your foundation garment goes rogue in the middle of a busy intersection? And what price did they pay for calling her orange juice? Atkins answers all these questions and more in her own unmistakable Southern style. She recounts stories about the men who congregated in the police station and the eccentric characters who worked on Main Street, shares words of wisdom from her Granny, and tells how one superstitious old man could literally make it rain even during the dry, dog days of summer. Each person still lives in Atkins memory frozen in time just as they were in the 70s, and its these ghosts of bygone days who shine through in *They Call Me Orange Juice*.

The Spectator Oxford University Press on Demand “The failure of Liberalism” in Germany and its responsibility for the rise of Nazism has been widely discussed among scholars inside and outside Germany. This author argues that German liberalism failed because of the irreconcilable conflict between two competing visions of German identity. In following the German liberal parties from the Empire through the Third Reich Kurlander illustrates convincingly how an exclusionary racist Weltanschauung, conditioned by profound transformations in German political culture at large, gradually displaced the liberal-universalist conception of a democratic Rechtsstaat. Although there were some notable exceptions, this widespread obsession with „racial community [Volksgemeinschaft]“

caused the liberal parties to succumb to ideological lassitude and self-contradiction, paving the way for National Socialism.

From an acclaimed cultural critic, a narrative and social history of the Great American Songwriting era. Everybody knows and loves the American Songbook. But it’s a bit less widely understood that in about 1950, this stream of great songs more or less dried up. All of a sudden, what came over the radio wasn’t Gershwin, Porter, and Berlin, but “Come on-a My House” and “How Much Is That Doggie in the Window?” Elvis and rock and roll arrived a few years later, and at that point the game was truly up. What happened, and why? In *The B Side*, acclaimed cultural historian Ben Yagoda answers those questions in a fascinating piece of detective work. Drawing on previously untapped archival sources and on scores of interviews—the voices include Randy Newman, Jimmy Webb, Linda Ronstadt, and Herb Alpert—the book illuminates broad musical trends through a series of intertwined stories. Among them are the battle between ASCAP and Broadcast Music, Inc.; the revolution in jazz after World War II; the impact of radio and then television; and the bitter, decades-long feud between Mitch Miller and Frank Sinatra. *The B Side* is about taste, and the particular economics and culture of songwriting, and the potential of popular art for greatness and beauty. It’s destined to become a classic of American musical history.

The British Architect

How did Nicholas II, Russia’s last Tsar, meet his death? Shot point blank in a bungled execution by radical Bolsheviks in the Urals, Nicholas and his family disappeared from history in the Soviet era. But in the 1970s, a local geologist and a crime fiction writer discovered the location of their clandestine mass grave, and secretly removed three skulls, before reburying them, afraid of the consequences of their find. Yet the history of Nicholas’ execution and the discovery of his remains are not the only stories connected with the death of the last Tsar. This book recounts the horrific details of his death and the thrilling discovery of the bones, and also investigates the alternative narratives that have grown up around these events. Stories include the contention that the Tsar’s killing was a Jewish plot, in which Nicholas’ severed head was taken to Moscow as proof of his death; tales of would-be survivors of the execution, self-confessed children of the Tsar claiming their true identity; and accounts of miracles performed by Nicholas, who was made a saint by the Russian church in 2000. Not least among these alternative narratives is the romanticization of the Romanovs, epitomized by the numerous photographs of the family released from the Russian archives.
