Many readers drawn into the heroic tales of J. R. R. Tolkien's imaginary world of Middle-earth have given little conscious thought to the importance of the land itself in his stories or to the vital roles played by the flora and fauna of that land. As a result, *The Hobbit*, *The Lord of the Rings*, and *The Silmarillion* are rarely considered to be works of environmental literature or mentioned together with such authors as John Muir, Rachel Carson, or Aldo Leopold. Tolkien's works do not express an activist agenda; instead, his environmentalism is expressed in the form of literary fiction. Nonetheless, Tolkien's vision of nature is as passionate and has had as profound an influence on his readers as that of many contemporary environmental writers. The burgeoning field of agrarianism provides new insights into Tolkien's view of the natural world and environmental responsibility. In *Ents, Elves, and Eriador*, Matthew Dickerson and Jonathan Evans show how Tolkien anticipated some of the tenets of modern environmentalism in the imagined world of Middle-earth and the races with which it is peopled. The philosophical foundations that define Tolkien's environmentalism, as well as the practical outworking of these philosophies, are found throughout his work. Agrarianism is evident in the pastoral lifestyle and sustainable agriculture of the Hobbits, as they harmoniously cultivate the land for food and goods. The Elves practice aesthetic, sustainable horticulture as they shape their forest environs into an elaborate garden. To complete Tolkien's vision, the Ents of Fangorn Forest represent what Dickerson and Evans label feraculture, which seeks to preserve wilderness in its natural form. Unlike the Entwives, who are described as cultivating food in tame gardens, the Ents risk eventual extinction for their beliefs. These ecological philosophies reflect an aspect of Christian stewardship rooted in Tolkien's Catholic faith. Dickerson and Evans define it as "stewardship of the kind modeled by Gandalf," a stewardship that nurtures the land rather than exploiting its life-sustaining capacities to the point of exhaustion. Gandalfian stewardship is at odds with the forces of greed exemplified by Sauron and Saruman, who, with their lust for power, ruin the land they inhabit, serving as a dire warning of what comes to pass when stewardly care is corrupted or ignored. Dickerson and Evans examine Tolkien's major works as well as his lesser-known stories and essays, comparing his writing to that of the most important naturalists of the past century. A vital contribution to environmental literature and an essential addition to Tolkien scholarship, *Ents, Elves, and Eriador* offers both Tolkien fans and environmentalists an understanding of Middle-earth that has profound implications for environmental stewardship in the present and the future of our own world.

Field Manual (FM) 3-50.1 is the Army's doctrinal publication for personnel recovery. It presents doctrinal guidance and direction for Army personnel recovery operations and is the foundation for developing tactics and techniques, handbooks, and unit standard operating procedures. It provides operational direction for commanders, staffs, and trainers at all echelons, from company through theater army. This doctrine helps ensure all echelons of the Army organize, train, and equip to conduct personnel recovery and prevent isolation incidents. This FM supersedes and builds on the groundbreaking work of FM 3-50.1, Army Personnel Recovery, 10 August 2005, by articulating the importance of the commander in successful personnel recovery operations, enlarging its scope to include stability operations and defense support of civil authorities operations, and addressing unified land operations. This updated manual incorporates the doctrinal concepts in FM 1, The Army; ADP 3-0, Unified Land Operations; FM 3-07, Stability Operations; and FM 3-28, Civil Support Operations. Army personnel recovery doctrine is consistent with joint personnel recovery doctrine, applicable Department of Defense directives (DODDs) and instructions (DODIs), Chairman of the Joint Chiefs of Staff instructions and manuals, Army policy and regulation, and federal law. It is Department of Defense (DOD) policy, established in DODD 3002.01E, to preserve the lives and well-being of individuals who are in danger of becoming, or already are, beleaguered, besieged, captured, detained, interned, or otherwise missing or evading capture while participating in activities or missions sponsored by the United States. The target audience for FM 3-50.1 is Army commanders and staffs responsible for the planning, preparation, execution, and assessment of personnel recovery operations. This manual provides guidance for other Service commanders and staffs who command and work with Army forces. This manual is also a resource for United States government agencies and other unified action partners who seek to understand the role of the Army in safeguarding and recovering Soldiers.

The Antinomies of Antonio Gramsci Penguin

Like sharks, epidemic diseases always lurk just beneath the surface. This fast-paced history of their effect on mankind prompts questions about the limits of scientific knowledge, the dangers of medical hubris, and how we should prepare as epidemics become ever more frequent. Ever since the 1918 Spanish influenza pandemic, scientists have dreamed of preventing catastrophic outbreaks of infectious disease. Yet, despite a century of medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. From the Spanish flu and the 1924 outbreak of pneumonic plague in Los Angeles to the 1930 'parrot fever' pandemic and the more recent SARS, Ebola, and Zika epidemics, the last 100 years have been marked by a succession of unanticipated pandemic alarms. Like man-eating sharks, predatory pathogens are always present in nature, waiting to strike; when one is seemingly vanquished, others appear in its place. These pandemics remind

us of the limits of scientific knowledge, as well as the role that human behaviour and technologies play in the emergence and spread of microbial diseases.

The "highly addictive" international bestseller, "an amazing true-life thriller, one of the most suspenseful books written in recent years" (Jeffrey Gettleman, Pulitzer Prize-winning author). In January 2012, having covered a Somali pirate trial in Hamburg for Spiegel Online International—and funded by a grant from the Pulitzer Center on Crisis Reporting—Michael Scott Moore traveled to the Horn of Africa to write about piracy and ways to end it. In a terrible twist of fate, Moore himself was kidnapped and subsequently held captive by Somali pirates. Subjected to conditions that break even the strongest spirits—physical injury, starvation, isolation, terror—Moore's survival is a testament to his indomitable strength of mind. In September 2014, after 977 days, he walked free when his ransom was put together by the help of several US and German institutions, friends, colleagues, and his strong-willed mother. Yet Moore's own struggle is only part of the story: *The Desert and the Sea* falls at the intersection of reportage, memoir, and history. Caught between Muslim pirates, the looming threat of Al-Shabaab, and the rise of ISIS, Moore observes the worlds that surrounded him and places his ordeal in the context of the larger political and historical issues. A sort of *Catch-22* meets *Black Hawk Down*, *The Desert and the Sea* is written with dark humor, candor, and a journalist's clinical distance and eye for detail. Moore offers an intimate and otherwise inaccessible view of life as we cannot fathom it, brilliantly weaving his own experience as a hostage with the social, economic, religious, and political factors creating it. "A harrowing and affecting account." —Kirkus Reviews (starred review)

The Red Circle Allyn & Bacon

Narrated from death row by Alcibiades' bodyguard and assassin, a man whose own love and loathing for his former commander mirrors the mixed emotions felt by all Athens, *Tides of War* tells an epic saga of an extraordinary century, a war that changed history, and a complex leader who seduced a nation. Brilliant at war, a master of politics, and a charismatic lover, Alcibiades was Athens' favorite son and the city's greatest general. A prodigal follower of Socrates, he embodied both the best and the worst of the Golden Age of Greece. A commander on both land and sea, he led his armies to victory after victory. But like the heroes in a great Greek tragedy, he was a victim of his own pride, arrogance, excess, and ambition. Accused of crimes against the state, he was banished from his beloved Athens, only to take up arms in the service of his former enemies. For nearly three decades, Greece burned with war and Alcibiades helped bring victories to both sides — and ended up trusted by neither. BONUS: This edition contains an excerpt from Steven Pressfield's *The Profession*. Praise for *Tides of War* "Pressfield's battlefield scenes rank with the most convincing ever written." —USA Today "Pressfield serves up not just hair-raising battle scenes . . . but many moments of valor and cowardice, lust and bawdy humor. . . . Even more impressively, he delivers a nuanced portrait of ancient Athens." —Esquire "Unabashedly brilliant, epic, intelligent, and moving." —Kirkus Reviews "Pressfield's attention to historic detail is exquisite. . . . This novel will remain with the reader long after the final chapter is finished." —Library Journal "Astounding, historically accurate tale . . . Pressfield is a master storyteller, especially adept in his graphic and embracing descriptions of the land and naval battles, political intrigues and colorful personalities, which come together in an intense and credible portrait of war-torn Greece." —Publishers Weekly

INSTANT NEW YORK TIMES BESTSELLER "Fast and thrilling . . . Life Undercover reads as if a John le Carr é character landed in Eat Pray Love." —The New York Times Amaryllis Fox's riveting memoir tells the story of her ten years in the most elite clandestine ops unit of the CIA, hunting the world's most dangerous terrorists in sixteen countries while marrying and giving birth to a daughter Amaryllis Fox was in her last year as an undergraduate at Oxford studying theology and international law when her writing mentor Daniel Pearl was captured and beheaded. Galvanized by this brutality, Fox applied to a master's program in conflict and terrorism at Georgetown's School of Foreign Service, where she created an algorithm that predicted, with uncanny certainty, the likelihood of a terrorist cell arising in any village around the world. At twenty-one, she was recruited by the CIA. Her first assignment was reading and analyzing hundreds of classified cables a day from foreign governments and synthesizing them into daily briefs for the president. Her next assignment was at the Iraq desk in the Counterterrorism center. At twenty-two, she was fast-tracked into advanced operations training, sent from Langley to "the Farm," where she lived for six months in a simulated world learning how to use a Glock, how to get out of flexicuffs while locked in the trunk of a car, how to withstand torture, and the best ways to commit suicide in case of captivity. At the end of this training she was deployed as a spy under non-official cover--the most difficult and coveted job in the field as an art dealer specializing in tribal and indigenous art and sent to infiltrate terrorist networks in remote areas of the Middle East and Asia. Life Undercover is exhilarating, intimate, fiercely intelligent--an impossible to put down record of an extraordinary life, and of Amaryllis Fox's astonishing courage and passion.

Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, The Red Circle provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors-including Marcus Luttrell and Chris Kyle-that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military.

Rebecca Reisert's mesmerizing first novel re-imagines Macbeth, Shakespeare's classic tragedy of power and madness, through the eyes of a mysterious young woman on a dangerous quest for vengeance. For the girl called Gilly, life in the wilds of Birnam Wood is little more than a desperate struggle for survival. Seven long years have passed since she was first taken in and sheltered by Nettle and Mad Helga, the hut-dwelling wise-women whose inscrutable powers of alchemy and prophecy are feared and reviled throughout good King Duncan's kingdom. Living under the threat of deadly persecution by witch-hunting villagers, the threesome ekes out a life by peddling potions and elixirs, scavenging for food, and robbing the bloodied corpses of Scotland's battle-scarred hills for precious metals and weapons. But Gilly is haunted by recollections of a much brighter life. She clings to fading memories of a time when she was contented and adored -- until tragedy swept all that happiness away and young Gilly's life was changed forever. I have made my life an arrow, and His heart is my home. I have made my heart a blade, and His heart is my sheath....Obsessed with avenging her loss and putting out the fire that still rages in her heart, Gilly has dedicated herself to destroying Macbeth, the boundlessly ambitious man who took away her childhood, and his goading wife. Disguising herself as a poor servant boy, she insinuates herself into their lives and, as she bears horrified witness to Macbeth's violent path to power, Gilly subtly begins to take a hand in the forces governing his fate. But as the culmination of her revenge draws near, Gilly finds her own life at risk when she confronts the troubling legacy of a long-concealed heritage. The Third Witch is a brilliantly imagined, wonderfully satisfying novel. In a riveting story of ruthlessness and revenge, debut author Rebecca Reisert demonstrates a profound understanding of the Bard's timeless drama -- and of the real-life Macbeth upon whom Shakespeare's incarnation is modeled.

A major essay on the thought of the great Italian Marxist Perry Anderson ' s essay " The Antinomies of Antonio Gramsci, " first published in New Left Review in 1976, was an explosive analysis of the central strategic concepts in the thought of the great Italian Marxist. Since then it has been the subject of book-length attacks across four decades for its disentangling of the hesitations and contradictions in Gramsci ' s highly original usage of such key dichotomies as East and West, domination and direction, hegemony and dictatorship, state and civil society, and war of position and war of movement. In a critical tribute to the international richness of Gramsci ' s work, the essay shows how deeply embedded these notions were in the revolutionary

debates in Tsarist Russia and Wilhelmine Germany. Here arguments crisscrossed between Plekhanov, Lenin, Kautsky, Luxemburg, Luk á cs and Trotsky, with later echoes in Brecht and Benjamin. A new preface considers the objections the essay provoked and the reasons for them. This edition also includes the first English translation of Athos Lisa ' s report on Gramsci ' s lectures in prison.
