The serial number has a number of different purposes. Most important, it helps the manufacturer keep track of each and every single watch they produce. But at the same time, the recorded databases of the serial numbers

are rarely shared with the public, but used and kept by the company alone.

Unfortunately there is very little

information out there for these numbers and what information is available is not always very accurate. From 1930 to 1962 the VIN number was the engine number and was only located on the left case.

Antique Tractor Serial Numbers - Yesterday's Tractors

The serial number tells you if the motor was built for the American market, the horsepower, the options it's supposed to have, the length of the driveshaft in the lower unit and what year it

was made. Step 1. Look at the first digit. If it's a letter other than "J" or "E," it's a model variation built for a boat builder to include in a boat
