**BMW Warning Lights | What Does my BMW Dashboard Light Mean?**

The EPC warning light is a warning light that indicates a problem with your throttle system, including the throttle body, accelerator pedal, cruise control, or traction control. The Volkswagen EPC light often shows up with the Engine, ABS, or ESP Light, depending on where the problem is located.

Severity of the engine temperature warning light depends on colour. If the dashboard symbol is red, overheating will occur. Stop the car and switch off the engine to allow cooling. Do not open bonnet until engine has sufficiently cooled as there is a risk of scolding. If the light is yellow, the engine is running hot. [Check engine light - Wikipedia](#)
