One great thing about their service is they will guide you through all the way when you need help. I'm really glad I've seen their website on google when searching for beeline and megafon simcard[ofcourse roaming is already activated]. I highly recommend rus-sim.com when buying simcards online. Julie, The Philippines. Dear Sergey,

Megafon prepaid sim card. Let me tell you if it is worth going up two levels to the Megafon kiosk to buy your Russia sim here. I went there twice as a week later I wanted to double check the information what I worte down and both ladies spoke very little English. Service level for English speaking tourists was zero.

### 

MegaFon (Russian: ??????), previously known as North-West GSM, is the second largest mobile phone operator and the third largest telecom operator in Russia. It works in the GSM, UMTS and LTE standard. Its main competitors are Mobile TeleSystems (MTS), VimpelCom (Beeline), and Tele2 in the cellular segment, and Rostelecom and Interregional

How to disable paid services Megaphone The need to use a particular service (especially pay) may eventually disappear, so you may need a service or a room that would allow such a service to disable. Operator "MegaFon" provides its subscribers several ways to get rid of unnecessary services.

### About MegaFon - Press room and Investor <u>Relations</u>

The quality of service depends on a region. For example, MTS can work better on one street in Moscow, and Megafon can work better on another street. You cannot presage it. So, we advise to choose based on prices, discounts, and terms of agreement. The signal quality is also depends on your location; how far you stand from the antenna.

Megafon says it has started testing NB2 (secondgeneration NB-IoT) devices with chipmaker MediaTek. It claims data rates of up to 130Kbit/s for the devices. NB1 (the first generation of the standard) offers typical speeds of 50Kbit/s to 100Kbit/s. The NB2 spec was completed by the 3GPP standards group in June 2017 with its Release 14.
