Masterbuilt Electric Smoker Cookbook Lincoln Children's Books

This book is written with the sincere conviction that it will convey a message other than the one we have been led to accept about Biblical and other ancient texts. It may change your experience in the way you view life and the concept of God and religion, as well as your relationship with those beliefs. This book is about ancient principles contained in the Bible and many other documents inscribed long ago, such as the Nag Hammadi Library and the Dead Sea Scrolls. Words paint mental pictures that enfold in our minds, and we call this "getting answers." At times, we take these images as the only truth there is, since we can see or imagine it. We base this personally

---

conceived truth on what we learn in life. Should we not ask ourselves: what if all this is based on falsehoods? These mental illustrations - that we call "thoughts" - are founded solely on what we have seen or read. Most of the time, we compare them, and in this fashion, we develop personal beliefs according to our choices. This practice is not specifically reserved for the individual. It spreads throughout our society, when each and every human experiences the same event or feeling, or reads a similar book. As a result, the collective mindset - sometimes called the "over mind" - now generates large-scale belief systems that, in time, we have termed as "religion." Entire nations have been known to bond in the same creed. Even when founded with the best of intentions, these systems tend to bind us as a group, with one mindset going in one direction, while offering no other alternatives. In some respects, this direction may not necessarily be the best or

ideal goal toward which we can journey. It does limit us in the centuries-old matter pertaining to God or the God Head, and it affects our individual experience. It also influences what we know about the ancient teachers and prophets of long ago.

NOVEL

Both the Rife healing machines, the Rife microscope and the Prioré healing

machines appeared to have stunningly successful results. It was not fully understood how or why they accomplished such results till now. What were the electro-magnetic principles of the machines that they so famously built? Why have so many so-called replications failed or fallen short? After over three decades of research, John Bedini answers all these questions, and more, in this newly released DVD and booklet. In the beginning of this book, Bedini walks us through his initial introduction and instruction in the Rife technologies. John goes through both the deliberate and often inadvertent obfuscation of what Rife's healing frequencies were, and how they were

---

propagated. His circuits, charts and notes are shared with readers and spectators as he lays out in meticulous detail what Rife and Prioré accomplished in the past. John Bedini has finally solved the puzzle.

An aging California vintner is determined to protect her empire from a hostile family takeover and the dark secrets that could destroy everything she loves. At age seventy-four, Assaria "Sari" LeBaron is still a force to be reckoned with. For decades, she has run the Baronet Vineyards, one of California's largest and

---

most successful wine producers, maintaining sole control even after a suspicious accident left her permanently crippled. And now, in her golden years, the formidable Sari refuses to relinquish power to her own children, a decision that has only served to increase tensions among her already emotionally damaged family members. But Sari's ambitious son, Eric, is no longer willing to play a subservient role, and has begun working behind the scenes to take over the business, forming alliances within and outside the family in his effort to dethrone the unyielding matriarch. The most difficult fight of Sari LeBaron's long and eventful life has begun; a heartbreaking struggle that will pit loved one against loved one and expose long-hidden secrets that could destroy both

Sari's business and her family. The LeBaron Secret is another riveting excursion into a world of privilege that Stephen Birmingham knows intimately. It is a breathtaking tale of secrets and lies, shady double-dealings, family skeletons, and the inner turmoil of the fabulously wealthy as only the bestselling author of "Our Crowd" and The Auerbach Will could tell it.
