The Tutor at Your Side is a complete camera manual uniquely addressing the user's needs at each stage of their development. The Orientation section describes the physical control and menu features with illustrated locations and concise descriptions of function

, settings and operation plus page references to detail discussions. The Startup section gives setup and care and the Quick and Detailed sections give minimal and complete types of operation, respectively. The Effective Use and Refresher sections are unique to the Tutor manuals, giving limitations/work-arounds and a concise review for use after time has passed, respectively. Many of the sections are given separately for the Basic (Point and Shoot) and Creative shooting modes. The manual is constructed for field use with laminated covers and a coil binding.

building blocks of The basic structure of the EOS Rebel T8i/850D camera is similar to that of its predecessor model EOS Rebel T6i. This camera has a 24 Megapixel APS-C sensor. The new generation sensor with a dual-chip can capture very good images in high-contrast conditions. Due to the presence of

using the Canon EOS M6 Mark II camera. It starts out by going over the feature and modes in the device, followed by defining some key terms that canon camera user needs to know. This book will explain all the basics settings, Dials, Modes, Buttons, Shooting

the Dual-Chip CMOS AF sensor, it is much faster and has a much larger coverage area. It is possible to make some good photos by using the Dual-Chip CMOS AF sensor. It helps in improved AF and AF-C performance as compared to the EOS Rebel T6i. Furthermore, the user can use this camera in low-light situations. In the photos captured in low light, it is possible to see a very bright bokeh effect. Also, it has better autofocus ability than the EOS Rebel T6i. The maximum ISO can be set up to 16000 and the range of ISO 100-32000. Its electronic shutter is faster than the EOS Rebel T6i. It has a new AF algorithm that makes it possible to track the subject with very little user

effort. The camera can also shoot videos in 4K resolution at 30 frames per second. The previous model EOS Rebel T6i can shoot videos only in HD resolution. This camera features a Live View Finder, which can display what is in the viewfinder on the screen. The screen can be tilted up and down from the right side of the camera. The built-in pop-up flash can be attached to the camera to allow users to click portraits with no flash. The viewfinder and the rear LCD are always shown on the top plate and the sensitivity can be adjusted. This is the Manual you need to get started with using this camera seamlessly. The Tutor at Your Side manual addresses the user's needs at each stage of their development. The

Startup section gives Camera Setup and Care. The next sections provide continuous guidance through 3 learning phases: 1. The Orientation section describes the control and menu features with illustrated locations and concise descriptions of function, settings, operation and references to detail descriptions. 2. The Operation section gives the user a choice of 4 complete and independent starting points: There are 2 Basic subsections, Quick

and Detailed, for Point and Shoot operation and Creative subsections, Quick and Detailed, for the Complete Control mode of operation. Each Detailed subsection includes the corresponding Quick subsection to eliminate looking back. Each subsection is sequenced in Photo Session order: Displays, Session Prep/Field Setup, Photo Features (Shooting Mode, Composition, Focus, Drive, Exposure and Shutter), Evaluation, Correction and Session Finish.

Each subsection includes reset reminders at the individual features and at the Session Finish. Custom Function setups are given just before the first possible use and usage reminders are given thereafter (Creative Detailed section only). The Effective Use section continues the user guidance beyond the mechanics and the Reference section covers Problems, Playback and Printing. The manual has laminated covers for durability and a coil binding so it will stay open.
