Importing Into the United States

For nearly a year, Edwin A. Tucker tape recorded interviews with early-day Rangers and other officials, some retired, some still in harness. And from newspapers and official sources he gleaned news items, letters and reports concerning early activities and people. This book is a distillation of that

material, plus such other material and chapters that were needed to clarify and bring up to date the story of some of the people of the Forest Service in the Southwest. Tucker has spent his adult life in the Forest Service, beginning during the period when many pioneer conditions still prevailed in the Southwest, and he knew and worked with many of the old timers and of course with the new breed of professionals who now guide the

Border clearance processes by

customs and other agencies are among the most important and problematic links in the global supply chain.

Delays and costs at the border undermine a country's competitiveness, either by taxing imported inputs with deadweight inefficiencies or by adding costs and reducing the competitiveness of

exports. This book provides a practical guide to assist policy makers, administrators, and border management professionals with information and advice on how to improve border management systems, procedures, and institutions.
