The Butthole

Surfers remain

one of the most

enigmatic bands

in the history of

rock music. Most

of their records

have no

information of

any kind, and

often with the

suggestion that

you play them at

69 rpm.... They

lived like nomads

through much of

the 1980s, and

built their

reputation upon

tours that never

ended, and shows

that resembled

hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the

band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...

This manual takes a look inside a modern, heavily automated car factory, where every car produced is bespoke, having been built specially to fulfill an individual

customer ' s order. It is a fascinating insight into the processes, equipment, and people involved behind the scenes in building a MINI, from initial design studies and ' body-in-white ' metal panels, to completed car on the way to its new owner.
