Direct Support and General
Support Maintenance Manual

Jeffrey Frank Jones

Service Manual for the British Super-Heavy tank TOG-2R. Pieced together from surviving records this manual was written in sections during the long development of the tank and was stopped when the project was terminated. As such the manual is incomplete but has been recreated as close as possible to what the original manual would have looked like had the tank entered production.

Terminated at a time when the manual was transitioning from TOG-2R to TOG-2* this manual provides an intriguing insight into the development process for a service manual for a tank and to the vehicle itself. Intended as a supplement to 'The Tanks of TOG' by Andrew Hills this manual shows how far the project had progressed and the amount of work which had gone into the design.
