Goose has gone on holiday and

Duck is looking after her pond. But Duck is a bit too enthusiastic... "No splashing! No fishing! No racing!" he quacks. Soon Duck becomes very bossy and puts up signs everywhere! Diving is forbidden! (Because Duck says so)No swimming! (By order of Duck in charge of the pond!)But all his friends start leaving... will bossy Duck learn his lesson before it's too late? A fun-filled tale about what happens when someone gets a little too self-important!

I Am My Own Home and Other Essays Dorling Kindersley Ltd

Sixteen newly selected readings from 1992-2001 examine US debates and data on six key issues: why voter turnout continues to be low, the impact of public lack of political information, what determines the vote, voters seeming preference for divided government, how politics affects party identification, and the party system in transition. Political scientists Niemi (U. of Rochester) and Weisberg (Ohio State U.) provide section introductions. c. Book News Inc.

Electric Field Analysis is both a student-friendly textbook and a valuable tool for engineers and physicists engaged in the design work of high-voltage insulation systems. The text begins by introducing the physical and mathematical fundamentals of electric fields, presenting problems from power and dielectric engineering to show how the theories are put into practice. The book then describes various techniques for electric field analysis and their significance in the validation of numerically computed results, as well as: Discusses finite difference, finite element,

charge simulation, and surface charge simulation methods for the numerical computation of electric fields Provides case studies for electric field distribution in a cable termination, around a post insulator, in a condenser bushing, and around a gas-insulated substation (GIS) spacer Explores numerical field calculation for electric field optimization, demonstrating contour correction and examining the application of artificial neural networks Explains how high-voltage field optimization studies are carried out to meet the desired engineering needs Electric Field Analysis is accompanied by an easy-to-use yet comprehensive software for electric field computation. The software, along with a wealth of supporting content, is available for download with qualifying course adoption.

Politics and Politicking 101 USA Haynes Manuals N. America, Incorporated

Indulgent and sensual, outrageous and taboo, but always highly erotic, this new collection of Black Lace stories takes the illicit and daring rendezvous with a lover (or lovers) as its theme. Popular Black Lace authors like Portia Da Costa and Janine Ashbless contribute saucy tales, as do a number of brand new passionate and edgy voices from the US. Packed with a broad and thrilling range of women's sexual fantasies.

A practical guide for robust shar 'ah governance of

the Islamic banking industry Debate in the market on the extent of shar 'ah compliance of Islamic banks, their products, and activities has piqued stakeholders' interest. In Foundations of Shar 'ah Governance of Islamic Banks, Karim Ginena and Azhar Hamid explore the depths of shar 'ah governance to unravel its mysterious dimensions, and equip academics and practitioners with a solid understanding of the subject, which has become a serious challenge and thus deserves dedicated attention. The authors make a strong case for the need to contain the shar 'ah risk that Islamic banks experience, and present a compelling argument for how this should be done. Ginena and Hamid propose a robust shar 'ah governance model that comprehensively tackles this risk, and helps improve the extent of shar 'ah compliance of market players. The authors detail the internal, external, and institutional arrangements needed to promote responsible shar 'ah governance, and critically analyze current laws, regulations, and industry practices on the topic. The chapters of the book do the following: Examine the roots, characteristics and objectives of shar 'ah and its relation to financial dealings; Probe the role of regulators in shar 'ah governance, explore the different approaches adopted by banking supervisors, and provide examples of relevant legal and regulatory measures; Explain to bank directors and management the fiduciary duty they assume with respect to shar 'ah compliance, and detail how they could discharge this responsibility in line with best practices; Elaborate on the purpose of the Shar 'ah Supervisory Board (SSB), its responsibilities, competence criteria, internal regulations, and key governance guidelines; additionally, they explore different SSB models; Describe the internal shar 'ah control system including its six components, and examine the internal shar 'ah audit function as well as different stages of conducting a shar 'ah audit; Clarify the role of a shar 'ah auditor, with guidance on reporting lines, scope of duties, authority, and practical ways on fulfilling tasks, such as a sample shar 'ah risk assessment grid and audit checklists; Discuss the newly emerging external shar 'ah advisory firms that are expected to play a key role in the coming years and the services they provide. Through an effective treatment of each of these elements, and the way that they interact with one another, the book offers a fresh take on how robust

shar'ah governance of Islamic banks can be successfully accomplished. It is a comprehensive resource for academics, regulators, directors, lawyers, auditors, consultants, employees, and customers of Islamic banks interested in learning more about these challenges. This essential reading persuasively extends the discourse on the subject and addresses critical shar'ah issues that have policy implications for decision makers in jurisdictions aiming to attract the fast-growing Islamic finance industry or increase their market share.
