Designed for executives of companies that manufacture or sell products and students in an MBA program, this book outlines the challenges of launching a service and solutions business within a product-oriented organization. You might view services and solutions as a means to financial growth, reduced revenue volatility, greater differentiation from the competition, increased share of customer budget, and improved customer satisfaction, loyalty, and lock-in; but the authors visualize the transition from products sold to services rendered and identify the challenges that leaders will face during the transformation. Inside, the authors provide a framework—the service infusion continuum—to describe the different types of services and solutions that a product-rich company can offer beyond warranties, call centers, and websites that support customers in their use of products.

th CAiSE 2004 was the 16 in the series of International Conferences on Advanced Information Systems Engineering. In the year 2004 the conference was hosted by the Faculty of Computer Science and Information Technology, Riga Technical University, Latvia. Since the late 1980s, the CAiSE conferences have provided a forum for the presentation and exchange of research results and practical experiences within the field of Information Systems Engineering. The conference theme of CAiSE 2004 was Knowledge and Model Driven Information Systems Engineering for Networked Organizations. Modern businesses and IT systems are facing an ever more complex environment characterized by openness, variety, and change. Organizations are - coming less self-sufficient and increasingly dependent on business partners and other actors. These trends call for openness of business as well as IT systems, i.e. the ability to connect and interoperate with other systems. Furthermore, organizations are experiencing ever more variety in their business, in all conceivable dimensions. The different competencies required by the workforce are multiplying. In the same way, the variety in technology is overwhelming with a multitude of languages, platforms, devices, standards, and products. Moreover, organizations need to manage an environment that is constantly changing and where lead times, product life cycles, and partner relationships are shortening. The demand of having to constantly adapt IT to changing technologies and business practices has resulted in the birth of new ideas which may have a profound impact on the information systems engineering practices in future years, such as autonomic computing, component and services marketplaces and dynamically generated software.

The Marketing Plan Handbook presents a streamlined approach to writing succinct and meaningful marketing plans. By offering a comprehensive, step-by-step method for crafting a strategically viable marketing plan, this book provides the relevant information in a concise and straight-to-the-point manner. It outlines the basic principles of writing a marketing plan and presents an overarching framework that encompasses the plan's essential components. A distinct characteristic of this book is its emphasis on marketing as a value-creation process. Because it incorporates the three aspects of value management—managing customer value, managing collaborator value, and managing company value—the marketing plan outlined in this book is relevant not only for business-to-consumer scenarios but for business-to-business scenarios as well. This integration of business-to-consumer and business-to-business planning into a single framework is essential for ensuring success in today's networked marketplace. The marketing plan outlined in this book builds on the view of marketing as a central business discipline that defines the key aspects of a company's business model. This view of marketing is reflected in the book's cross-functional approach to strategic business planning. The Marketing Plan Handbook offers an integrative approach to writing a marketing plan that incorporates the relevant technological, financial, organizational, and operational aspects of the business. This approach leads to a marketing plan that is pertinent not only for marketers but for the entire organization. The Marketing Plan Handbook can benefit managers in all types of organizations. For startups and companies considering bringing new products to the market, this book outlines a process for developing

a marketing plan to launch a new offering. For established companies with existing portfolios of products, this book presents a structured approach to developing an action plan to manage their offerings and product lines. Whether it is applied to a small business seeking to formalize the planning process, a startup seeking venture-capital financing, a fast-growth company considering an initial public offering, or a large multinational corporation, the framework outlined in this book can help streamline the marketing planning process and translate it into an actionable strategic document that informs business decisions and helps avoid costly missteps.
