ServSafe Manager ServSafe CourseBook with Online Exam Voucher

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Introduce students to the supervisory skills they'll need to succeed in a hospitality career. They will be prepared to meet the expectations of management, employees, and guests.

SUPERVISION IN THE HOSPITALITY INDUSTRY, 5/e features revised procedures for managing conflict; expanded information on motivation, including a discussion of on-boarding;

new information on the role of technology and social media on recruiting and reference checks; new information on the costs and benefits of training; and a discussion of the use of technology for employee scheduling, including scheduling software and company intranets. This book also provides resources to help students create a professional development plan for their career. Authors: Jack D. Ninemeier, Ph.D., CHA, CHE, and Raphael R. Kavanaugh, Ed.D., CHA Food Code Pearson

Home canning has changed greatly in the 180 years since it was introduced as a way to preserve food. Scientists have found ways to produce safer, higher quality products. The first part of this publication explains the scientific principles on which canning techniques are based, discusses canning equipment, and describes the proper use of jars and lids. It describes basic

canning ingredients and procedures and how to use them to achieve safe, high-quality canned products. Finally, it helps you decide whether or not and how much to can. The second part of this publication is a series of canning guides for specific foods. These guides offer detailed directions for making sugar syrups; and for canning fruits and fruit products, tomatoes and tomato products, vegetables, red meats, poultry, seafood, and pickles and relishes. Handy guidelines for choosing the right quantities and quality of raw foods accompany each set of directions for fruits, tomatoes, and vegetables. Most recipes are designed to yield a full canner load of pints or quarts. Finally, processing adjustments for altitudes above sea level are given for each food. This publication contains many new research-based recommendations for canning

safer and better quality food at home. It is an invaluable resource book for persons who are canning food for the first time. Experienced canners will find updated information to help them improve their canning practices.
