SEVEN FORGES is the first novel in James A. Moore's epic fantasy series. One thing that continues to impress me about this author's writing talent is his ability to confidentially move across genres while still maintaining his unique "voice" throughout. In general, I would say that it takes me several chapters to get a good grasp on any "new world" presented in a fantasy novel.

"Moore does a fantastic job of building worlds and characters in Seven Forges as we hop on board the train that is about to meet its doom." – Troubled Scribe "James A. Moore dedicates Seven Forges in part 'to the memory of Fritz Leiber and Robert E. Howard for the inspiration.' That dedication sets the bar high, and caused me a bit of readerly apprehension, because so many writers have imitated badly those two greats of the sword and sorcery tradition.

To anyone who's having issues with The Aether II and GGUtil, GGUtil IS NOT COMPATIBLE WITH THE 1.12 VERSION OF AETHER II, I don't know why, but The Aether II states that only the 1.7

version need GGUtil, therefore this mod is not needed for 1.12 and actually causes crashes (for me atleast). Hope this helps anyone.
