Rachel Laudan tells the remarkable story of the rise and fall of the world's great cuisines—from the mastery of grain cooking some twenty thousand years ago, to the present—in this superbly researched book. Probing beneath the apparent confusion of dozens of cuisines to reveal the underlying simplicity of the culinary family tree, she shows how periodic seismic shifts in “culinary philosophy”—beliefs about health, the economy, politics, society and the gods—prompted the construction of new cuisines, a handful of which, chosen as the cuisines of empires, came to dominate the globe. Cuisine and Empire shows how merchants, missionaries, and the military took cuisines over mountains, oceans, deserts, and across political frontiers.

Laudan's innovative narrative treats cuisine, like language, clothing, or architecture, as something constructed by humans. By emphasizing how cooking turns farm products into food and by taking the globe rather than the nation as the stage, she challenges the agrarian, romantic, and nationalistic myths that underlie the contemporary food movement.

Rise of the Mongols offers readers a selection of five important works that detail the rise of the Mongol Empire through Chinese eyes. Three of these works were written by officials of South China's Southern Song dynasty and two are from officials from North China writing in the service of the Mongol rulers. Together, these accounts offer a view of the early Mongol Empire very different not just from those of Muslim and Christian travelers and chroniclers, but also from the Mongol tradition embodied in The Secret History of Mongols. The five Chinese source texts (in English translation, each with their own preface): Selections from Random Notes from Court and Country since the Jianyan Years, vol.2, by Li Xinchuan "A Memorandum on the Mong-Tatars," by Zhao Gong "A Sketch of the Black Tatars," by Peng Daya and Xu Ting "Spirit-Path Stele for His Honor Yel ü, Director of the Secretariat," by Song Zizhen "Notes on a Journey," by Zhang Dehui Also included are an introduction, index, bibliography, and appendices covering notes on the texts, tables and charts, and a glossary of Chinese and transcribed terms.

A superb historical novel about Richard III, the notorious hunchback king whose burial site was recently uncovered, which will appeal to fans of

Josephine Tey's THE DAUGHTER OF TIME, Philippa Gregory's THE KINGMAKER'S DAUGHTER, and readers of Hilary Mantel. At the heart of this stunning novel is the complex human being known to history as Richard III, a king whose reign is darkened by the murder of the young Princes in the Tower, but who also found a touching love with the woman he married, and possessed immense courage. As goes the old adage 'history is written by the victors', so Richard III's own story was corrupted by the spokesman of the Tudor regime, William Shakespeare. And yet here is a man who inspired loyalty and hatred in almost equal measure, until at last the implacable enmity of one woman brought about his downfall. In this classic novel, the paradox of England's most enigmatic king is vividly brought to life. It is a family drama in the grand tradition, a tale of brother against brother, cousin against cousin, of love, hate and intrigue, of women inescapably entangled in the fates of their men, and of a mystery that has exercised people's minds for more than five hundred years.

Masters and Johnson on Sex and Human Loving, written by the internationally acclaimed sex researchers William H. Masters, Virginia E. Johnson, and Robert C. Kolodny, is a comprehensive, warm, and highly readable survey that includes the most current findings on the remarkable range of complexities--biological, psychological, and social--that make up human sexuality.

Sex in History Headline Review

THIS IS A NEWLY UPDATED VERSION OF THE UNDERGROUND CLASSIC! "You're the Man... Act Like One!" Look, I know you're not a mind reader, so I'm going to be blunt... The majority of women like to be fucked. And I mean really fucked. Yes, the media has lied to you. Sure, there are some women who want to lie on their backs, look into your eyes, and gently rock back and forth, but most of us want you to channel the power of the Sun through your penis and give us a good, solid pounding. Act like you want it, for God's sake! In this book, I'm going to lay out exactly what the majority of women want and show you exactly how to give it to them. I've got a section just for you and one for your female partner, so you can feel 100% comfortable letting loose on her vagina in the way she's secretly craving. Some of the topics we'll cover... The Alpha Male - It's more than just being an ex-fratboy douchebag, who thinks he's still on the high school football team. I'll clue you in. Dirty Talk - Trust me, she wants it. If she didn't, she'd fuck a mime. Speaking of, did you know Marcel Marceau was divorced three times? Enough said. Role Playing - How she really feels about pretending to be the babysitter, a whore, and a student looking for a little "extra credit." I'll take you through her top Alpha Male fantasies...including one so controversial, I can't even mention it here. The Art of Being Assertive - Sack up and take control! What to do...and what not to do. Sexual Communication - Both you and your partner have needs and good communication, both verbal and non-verbal, is crucial when it comes to getting them on the table. I'll show you how to communicate "Alpha Male Style." You'll learn what to say...and how to say it. Now that I've got you all hyped up and extremely aware of the need to please your woman, let's make that

happen! What are you waiting for? Buy the book already! Eve Kingsley is a feminist writer based in San Francisco. She teaches couples how to push the boundaries of their sexual relationships to create new levels of honesty, intimacy, and trust.

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Countersexual Manifesto is an outrageous yet rigorous work of trans theory, a performative literary text, and an insistent call to action. Seeking to overthrow all constraints on what can be done with and to the body, Paul B. Preciado offers a provocative challenge to even the most radical claims about gender, sexuality, and desire. Preciado lays out mock constitutional principles for a countersexual revolution that will recognize genitalia as technological objects and offers step-by-step illustrated instructions for dismantling the heterocentric social contract. He calls theorists such as Derrida, Foucault, Butler, and Haraway to task for not going nearly far enough in their attempts to deconstruct the naturalization of normative identities and behaviors. Preciado's claim that the dildo precedes the penis—that artifice, not nature, comes first in the history of sexuality—forms the basis of his demand for new practices of sexual emancipation. He calls for a world of sexual plasticity and fabrication, of bio-printers and “dildonics,” and he invokes countersexuality's roots in the history of sex toys, pornography, and drag in order to rupture the supposedly biological foundations of the heterocentric regime. His claims are extreme, but supported through meticulous readings of philosophy and theory, as well as popular culture. The Manifesto is now available in English translation for its twentieth anniversary, with a new introduction by Preciado. Countersexual Manifesto will disrupt feminism and queer theory and scandalize us all with its hyperbolic but deadly serious defiance of everything we've been told about sex.

A man admits that, when drunk, he tried to have sex with an eighteen-year-old girl; she is arrested and denies they had intercourse, but finally begs God's forgiveness. Then she is publicly hanged alongside her attacker. These events took place in 1644, in Boston, where today they would be viewed with horror. How—and when—did such a complete transformation of our culture's attitudes toward sex occur? In *The Origins of Sex*, Faramerz Dabhoiwala provides a landmark history, one that will revolutionize our understanding of the origins of sexuality in modern Western culture. For millennia, sex had been strictly regulated by the Church, the state, and society, who vigorously and brutally attempted to punish any sex outside of marriage. But by 1800, everything had changed. Drawing on vast research—from canon law to court cases, from novels to pornography, not to mention the diaries and letters of people great and ordinary—Dabhoiwala shows how this dramatic change came about, tracing the interplay of

intellectual trends, religious and cultural shifts, and politics and demographics. The Enlightenment led to the presumption that sex was a private matter; that morality could not be imposed; that men, not women, were the more lustful gender. Moreover, the rise of cities eroded community-based moral policing, and religious divisions undermined both church authority and fear of divine punishment. Sex became a central topic in poetry, drama, and fiction; diarists such as Samuel Pepys obsessed over it. In the 1700s, it became possible for a Church of Scotland leader to commend complete sexual liberty for both men and women. Arguing that the sexual revolution that really counted occurred long before the cultural movement of the 1960s, Dabhoiwala offers readers an engaging and wholly original look at the Western world's relationship to sex. Deeply researched and powerfully argued, *The Origins of Sex* is a major work of history.

Our closest living relatives, the chimpanzees, are familiar enough—bright and ornery and promiscuous. But they also kill and eat their kin, in this case the red colobus monkey, which may say something about primate—even hominid—evolution. This book, the first long-term field study of a predator-prey relationship involving two wild primates, documents a six-year investigation into how the risk of predation molds primate society. Taking us to Gombe National Park in Tanzania, a place made famous by Jane Goodall's studies, the book offers a close look at how predation by wild chimpanzees—observable in the park as nowhere else—has influenced the behavior, ecology, and demography of a population of red colobus monkeys. As he explores the effects of chimpanzees' hunting, Craig Stanford also asks why these creatures prey on the red colobus. Because chimpanzees are often used as models of how early humans may have lived, Stanford's findings offer insight into the possible role of early hominids as predators, a little understood aspect of human evolution. The first book-length study in a newly emerging genre of primate field study, *Chimpanzee and Red Colobus* expands our understanding of not just these two primate societies, but also the evolutionary ecology of predators and prey in general.

Brought up in France, Mary returned to Scotland as a widow at eighteen to take up her throne. Beautiful, clever, with immense personal charm, she was totally unprepared for the brutal realities of ruling a country just emerging from civil war. In an era when religion and politics were one and the same, the inevitable clash between Catholic queen and Protestant subjects was intensified by the most bitter personal rivalries, and Mary found herself in ever-increasing danger: from the fearsome John Knox, who preached damnation to queens and death to Catholics; from her sanctimonious and ambitious brother; from her brilliant secretary of state; and from Elizabeth I, dazzling and unscrupulous, who feared Mary as a threat to her own throne ...

Presenting a history of cannibalism, this text shows how in primitive times, human game was treated just as any other, and both the prophet Muhammed and Richard the Lionheart consumed the bodies of their enemies. Also covered are modern-day cannibals such as Chikatilo and Hannibal Lecter. *Masters and Johnson on Sex and Human Loving* Praeger
This book examines sexuality in the past, and explores how it helps

explain sexuality in the present. The subject of sexuality is often a controversial one, and exploring it through a world history perspective emphasizes the extent to which societies, including our own, are still reacting to historical change through contemporary sexual behaviors, values, and debates. The study uses a clear chronological structure to focus on major patterns and changes in sexuality—both sexual culture and sexual behaviors—in the main periods of world history, covering topics including: • The sexual implications of the transition from hunting and gathering economies to agricultural economies; • Sexuality in classical societies; • The postclassical period and the spread of the world religions; • Sex in an age of trade and colonies; • Changes in sexual behaviors and sexual attitudes between 1750 and 1950; • Sex in contemporary world history. This new edition examines these issues on a global scale, with attention to anthropological insights on sexuality and their relationship to history, the dynamics between sexuality and imperialism, sexuality in industrial society, and trends and conflicts surrounding views of sex and sexuality in the contemporary world.

From Doris Lessing, winner of the Nobel Prize for Literature, this is the first instalment in the visionary novel cycle 'Canopus in Argos: Archives'. The story of the final days of our planet is told through the reports of Johor, an emissary sent from Canopus. Earth, now named Shikasta (the Stricken) by the kindly, paternalistic Canopeans who colonised it many centuries ago, is under the influence of the evil empire of Puttiora. War, famine, disease and environmental disasters ravage the planet. To Johor, mankind is a 'totally crazed species', racing towards annihilation: his orders to save humanity set him what seems to be an impossible task. Blending myth, fable and allegory, Doris Lessing's astonishing visionary creation both reflects and redefines the history of our own world from its earliest beginnings to an inevitable, tragic self-destruction.
