London history,

Peter Ackroyd surely re-creates the world that shaped Shakespeare--and brings the playwright himself into unusually vivid focus. With characteristic narrative panache, Ackroyd immerses us in sixteenth-century Stratford and the rural landscape – the industry, the animals, even the flowers – that would appear in Shakespeare ' s plays. He takes us through Shakespeare ' s London neighborhood and the fertile, competitive theater world where he worked as actor and writer. He shows

us Shakespeare as a businessman, and as a constant reviser of his writing. In joining these intimate details with profound intuitions about the playwright and his work, Ackroyd has produced an altogether engaging masterpiece. Alias Shakespeare Createspace Independent Publishing Platform The contents of the Shakespeare canon have come into question in recent years as scholars add plays or declare others only partially his work. Now, new literary and historical evidence demonstrates that five heretofore anonymous plays

published or performed during his lifetime are actually his first versions of later canonical works. Three histories, The Famous Victories of Henry the Fifth, The True Tragedy of Richard the Third, and The Troublesome Reign of John; a comedy, The Taming of a Shrew; and a romance, King Leir, are products of Shakespeare's juvenile years. Later in his career, he transformed them into the plays that bear nearly identical titles. Each is strikingly similar to its canonical counterpart in terms of structure, plot and cast, though the texts were entirely rewritten. Virtually all scholars, critics and editors of Shakespeare have overlooked or disputed the idea that

he had anything to do with them. This addition of five plays to the Shakespeare canon introduces a new facet to the authorship debate, and supplies further evidence that the real Shakespeare was Edward de Vere, seventeenth Earl of Oxford. Ebooks
Hamlet is a tragedy by William Shakespeare, believed to have been written between 1599 and 1601. The play, set in Denmark, recounts how Prince Hamlet exacts revenge on his uncle Claudius, who has murdered Hamlet's father, the King, and then taken the throne and married

Hamlet's mother. The play vividly charts the course of real and feigned madness—from overwhelming grief to seething rage—and explores themes of treachery, revenge, incest, and moral corruption. Shakespeare-- who was He? Greenwood Publishing Group A new biography of William Shakespeare that explores

his private life in Stratford-upon-Avon, his personal aspirations, his self-determination, and his relations with the members of his family and his neighbours. The Private Life of William Shakespeare tells the story of Shakespeare in Stratford as a family man. The book offers close readings of key documents associated with

Shakespeare and develops a contextual understanding of the genres from which these documents emerge. It reconsiders clusters of evidence that have been held to prove some persistent biographical fables. It also shows how the histories of some of Shakespeare's neighbours illuminate aspects of his own life. Throughout, we encounter a Shakespeare who consciously and with purpose designed his life. Having witnessed the business failures of his merchant father, he determined not to follow his father's model. His early wedding freed him from craft training to pursue a literary career. His wife's work, and probably the assistance of his parents and brothers, enabled him to make the first of the property purchases that grounded his life as a gentleman. With his will, he provided for both his daughters in ways that were suitable to their circumstances ; Anne Shakespeare was already protected by dower rights in the houses and lands he had acquired. His funerary monument suggests that the man of 'small Latin and less Greek' in
