An award-winning author and poet traces the history of his relatives lost in the Holocaust in a personal, powerful narrative with resonance for readers today. " They were there at the beginning of the war, but they were gone by the end. I suppose they died in the camps. " That ' s all young Michael Rosen, born in England just after the end of the Second World War, was told about the six great-aunts and great-uncles who had been living in Poland or France at the beginning of that war. This wasn ' t enough for him. So, as an adult, he started to search. He asked relatives for any papers they might have. He read book after book. He searched online, time and again, as more information was digitized and suddenly there to be found. In a unique mix of memoir, history, and poetry, scholar and children ' s literature luminary Michael Rosen explores his family history, digging up more details than he ever thought he would and sharing them with readers so that now, a lifetime after the Nazis tried to make the world forget the Rosen family and the rest of Europe ' s Jews, his readers can do something essential: remember. With an extensive list of titles for further reading, maps of France and Poland, a family tree, and an introduction by lauded author and anthologist Marc Aronson, this immensely readable narrative offers a vital tool for talking to children about the Holocaust against the background of the ongoing refugee crisis.

This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. A range of mainstream and independent English language film productions of A Midsummer Night's Dream, Romeo and Juliet, Othello, Twelfth Night, and The Merchant of Venice take centre stage in Queering the Shakespeare Film. This study critiques the various representations of the queer – broadly understood as that which is at odds with what has been deemed to be the normal, the legitimate, and the dominant, particularly – but not exclusively – as regards sexual matters, in the Shakespeare film. The movies chosen for analysis correspond deliberately with those Shakespeare plays that, as written texts, have been subjected to a great deal of productive study in a queer context since the beginnings of queer theory in the early 1990s. Thus the book extends the ongoing queer discussion of these written texts to their counterpart cinematic texts. Queering the Shakespeare Film is a much-needed alternative and complementary critical history of the Shakespeare film genre.

Is there a specificity to adapting a Roman play to the screen ? This volume interrogates the ways directors and actors have filmed and performed the Shakespearean works known as the "Roman plays", which are, in chronological order of writing, Titus Andronicus, Julius Caesar, Antony and Cleopatra and Coriolanus. In the variety of plays and story lines, common questions nevertheless arise. Is there such a thing as filmic "Romanness"? By exploring the different ways in which the Roman plays are re-interpreted in the light of Roman history, film history and the Shakespearean tradition, the papers in this volume all take part in the ceaseless investigation of what the plays keep saying not only about our vision of the past, but also about our perception of the present.

Through compelling examples, Brian Edmiston presents the case for why and how adults should play with young children to create with them a 'workshop for life'. In a chapter on 'mythic play' Edmiston confronts adult discomfort over children's play with pretend weapons, as he encourages adults both to support children's desires to experience in imagination the limits of life and death, and to travel with children on their transformational journeys into unknown territory. This book provides researchers and students with a sound theoretical framework for re-conceptualising significant aspects of pretend play in early childhood. Its many practical illustrations make this a compelling and provocative read for any student taking courses in Early Childhood Studies.

Intended for actors, directors, teachers and researchers, this book offers an exceptionally clear and thorough introduction to the renowned acting technique developed by Michael Chekhov. Sinéad Rushe's book provides a complete overview of the whole method, and includes illuminating explanations of its principles, as well as a wide range of practical exercises that illustrate, step by step, how they can be applied to dramatic texts. Part One provides an outline of the ideas that underpin the work, which help to prepare practitioners to become responsive and receptive, and to awaken their imagination. Part Two charts a journey through the foundational psychophysical exercises that can both orient an actor's training routine and be applied directly to the development of a role. Part Three focuses on more specific and elaborate methods of scene work, characterisation and the art of transformation. Drawing on the full range of Chekhov's writing in English and French, this book also examines unpublished material from the Dartington Hall archives and features interviews with actors who have worked with the technique, including Simon Callow and Joanna Merlin. It illustrates Chekhov's approach by referring to Rushe's own productions of Nikolai Gogol's short story Diary of a Madman and Shakespeare's Othello, as well as characters and scenes in Sarah Kane's Blasted and the contemporary American television series Breaking Bad. Michael Chekhov's Acting Technique is an accessible, comprehensive and contemporary point of reference for those already trained in the method, as well as an initiation and toolkit for practitioners who are just beginning to discover it.
