The Power of Ecstatic Trance Simon and Schuster
A highly successful plastic surgeon embraces shamanic healing techniques and helps her patients experience true beauty and ecstasy. • The author has been featured by Healthy Living magazine as one of the top 19 holistic healers for the millennium. • Shows readers how to embody the spiritual within the physical to shapeshift their lives on all levels. • Both an exceptional personal journey and an extraordinary exploration of the nature of real healing. As a dual board-certified plastic and reconstructive surgeon and the first non-Quechua woman to be initiated into the Circle of Yachaks (bird-people shamans of the Andes), Dr. Eve Bruce sees herself as an agent of change in both worlds. After traveling to Central and South America to study indigenous healing techniques, Bruce realized that although our culture is obsessed with narrowly defined standards of physical beauty, we actually devalue the physical because we separate it from the spiritual. She saw that her plastic surgery patients who felt ashamed of their "vanity" had the least successful outcomes. Those ready for change on emotional and spiritual levels were able to use the physical "shapeshift" provided by the surgeon's knife to transform their entire lives. By integrating the two healing modalities of surgeon and shaman, Bruce is able to help people shapeshift into newfound health on all levels--physical, emotional, and spiritual. Because she bore her first child at sixteen, rose to the challenges of single motherhood,

and worked her way through medical school, Bruce learned early to redirect the flow of her life, turning apparent obstacles into opportunities. As a powerful example of the human capacity for self-transformation, Bruce is uniquely qualified to inspire readers to redirect their own lives to places of beauty and self-acceptance.

Pagan Portals - Sexual Dynamics in the Circle Moon Books
A guide to ecstatic trance for spiritual and emotional development, spirit journeying, and connection to the collective unconscious • Describes more than 20 ecstatic trance postures for healing, divination, spirit journeys, shape-shifting, past-life recovery, and connecting to the Akashic field • Explores the physiology and psychology of ecstatic trance journeying • Provides guidance for those with little or no experience as well as methods to deepen practice Over the millennia shamanic trance journeying has been used as a way of healing, of providing answers to questions, and of offering solutions to individual, family, and community problems. Though traditionally it was the shaman of the community who went on such journeys, the revolutionary work of the late anthropologist Felicitas Goodman shows that we all have these shamanic powers. Her research on the body postures found in ancient primitive art and in the practices of contemporary shamans offers each of us the ability to experience ecstatic trance journeys firsthand. A student of Felicitas Goodman and Belinda Gore, psychologist Nicholas Brink examines more than 20 traditional trance postures for divination, decision making, letting go of guilt and grief, healing of illness and emotional pain, spirit journeys, shape-shifting, interacting with animal spirits and the dead, and discovering past lives. Exploring the physiology and psychology of ecstatic journeying, he offers guidance for those with little or no experience as well as methods for longtime practitioners to deepen their practice and reclaim the extrasensory power of our ancient ancestors. Offering solid theories of how ecstatic trance triggers healing and spiritual development, Brink explains how trance journeying allows us to tap in to the collective unconscious, or Universal Mind, and access the information matrix of the Akashic field.

This is a book to be experienced, not simply read. The Alchemy of Becoming series sets out a methodology that empowers you to raise your level of consciousness to levels never imagined possible. The first book and level of this process, Being of Truth, laid a foundation of authenticity and personal truth. In this second installment, Being of Love, the journey continues as you discover that love is not just a feeling or emotion but rather a powerful, life-enhancing and life-creating force. Level 1 reframed fear to trust. In Level 2, love is claimed over and beyond fear. This is transformation. Not just inspiration, but transformation to a state of higher consciousness available to us all. Einstein claimed that no problem can be solved from the same level of consciousness that created it. It is only in higher consciousness that the intractable issues of our times can be addressed. This applies equally to our individual lives be it our health, relationships, and to our sense of worth and well-being. Higher consciousness takes you from life happening to you, to life happening by you and expressed as you. The seven-stage alchemic process is the framework for transformation and while the process is universal, no two people will have the same experience. The experience is personalized to you, meaning that it is aligned to your unique vibrational makeup. This is a powerful, affirming aspect of this methodology as what is revealed to you can only be known by you. It all starts with you. Transforming yourself to be the alchemist of your own life while serving as a gateway for the change our world so desperately needs.

Have you ever wondered what it is like to be on a spiritual path? Do you sometimes wish you could see into the invisible world of spirit guides and celestial beings? You already communicate with higher consciousness through intuition but you may not realise it. Everyone has the capability to tune into other dimensions but doubt and disbelief will cloud the mind causing frustration. The thoughts that others can do it but not you are a barrier to receiving guidance. The idea that you have to be specially gifted to "see or hear" prevents you from opening up to the often subtle messages that spirit beings are trying to convey. Signs from the universe come in many forms and until you attune to a higher awareness you may be oblivious to most other than the "hit you over the head" kind of information. It isn't easy to stay focused on a spiritual life when we are regularly presented with everyday challenges but when we know can turn to a higher consciousness it helps us deal with life in a more informed and understanding way. Instead of playing small and thinking that there is nothing special about ourselves we can learn that we are powerful and strong. It is only conditioning and belief that hold us down and keep us in the illusion that we are simply physical entities. The fact is we are spiritual beings having a human experience, rather than human beings having a spiritual experience. We come from the spirit world with a plan to learn certain lessons and to hopefully master them, these lessons can include learning how to be powerless or powerful, healthy or disabled, rich or poor. Every one of us has lived before and will live again in a physical existence but these are things you have to discover for yourself to make them meaningful. There is nothing more convincing than direct experience but even then the mind will want to make you doubt the things you cannot explain in rational and logical terms. You are not alone in your struggles. Spirit Matters, Gateways to Healing and Higher Dimensions offers you the opportunity to look deep within and decide how you can best connect with the spiritual dimensions and the loving guides and teachers that are there to help. That is of course if you have the desire or inclination to do so. The choice is yours to make.

These common plants have powerful teachings and healing guidance to share with those who communicate with and honor them. The initiations, for both individuals and groups, work with the Wheel of the Year, honoring each plant ' s sacred timing and connecting with one of the eight Celtic and Pre-Celtic Fire Festivals--the solstices, equinoxes, and the holy days of Beltane, Lughnasadh, Samhain, and Imbolc. Greek myth is part of our background, the names of many of the gods and goddesses known to us all. Within the myths are numerous references to plants used by goddesses and gods to heal or enchant, and the names of many of these plants have been incorporated into the Latin binomials that are used to identify them. By half a millennium BCE the physician god Asclepius entered into the mythology and temples were built to him called Asclepieaea, where the sick came to worship him and sleep with serpents in dormitories, hoping to experience miracle cures. At around the same time the first actual physicians began to practice within the Asclepieaea, using herbs, surgery and dietary advice. From these remote beginnings Greek medicine and botany evolved and were recorded, first in the Hypocratic Corpus, then by many other famous Greek physicians including Theophrastus, Dioscorides and Galen, who recorded the medicinal plants they used. This book traces the evolution of Greek medicine, the source of Western medicine, and looks at a selection of plants with healing properties, including a large number of trees which were both sacred and medicinal.
