2010 - Document ID not being set in Libraries - SharePoint ...

In SharePoint the Document ID will normally move with the file. However, when the destination site does not have the Document ID service enabled, the document will no longer have a Document ID. For SharePoint Server the only way to retain a Document ID within sites is to use the Site Content and Structure administrative page in

### **Sharepoint 2010 Document Id Persistence**

During copy operations SharePoint Server 2010 assigns a new document ID. You can control this by setting a Boolean operator on the PersistID column. When a document ID is

---

assigned it is exposed as metadata, and the server exposes a static URL so that the item to which the document ID is assigned can be recognized by its document ID.
