The Growth of Islamic Finance and Banking Edward Elgar Publishing

This work is a practical and commercial guide to the fundamental principles of Islamic finance and their application to Islamic finance transactions. Islamic finance is a rapidly expanding, global industry and this book is designed to provide a practical treatment of the subject. It includes discussion and analysis of the negotiation and structure involved in Islamic finance transactions, with relevant case studies, structure diagrams and precedent material supporting the commentary throughout. An introductory section describes the theoretical background and explains the principles (and their sources) of Islamic law which underpin Islamic finance practices, providing an important backdrop to the work as a whole. The work also considers the role of Shariah supervisory boards, Islamic financial institutions and the relevance of accounting approaches. The work adopts an international perspective to reflect the pan-global nature of the industry and accepted practices, with the aim to bring together different schools of thought applied in international Islamic finance transactions. It also highlights any regional differences in accepted practice by reviewing the position in the Gulf states, Asia, the UK and Europe and the USA. The second part of the book concentrates on Islamic financial law in practice and begins with a section on financial techniques. This section explains the basic requirements for Islamic finance contracts both in terms of the underlying asset types and also both the applicability and acceptability of the underlying asset. There is a full discussion of the various types of contractual models such as Mudaraba (trustee finance), Musharaka (partnership or joint venture), Murabaha (sale of goods), and Sukuk (participation securities: coupons etc). The nascent area of Takaful (insurance) is also covered as are matters specific to the important field of project and asset finance.

Shari'ah Compliant Private Equity and Islamic Venture Capital John Wiley & Sons

An in-depth and insightful study of Shari'ah governance from a theoretical and practical perspective. Shari'ah governance has a profound influence on the day-to-day practice of Islamic Financial Institutions (IFIs) and each jurisdiction has adopted a different approach to developing a governance framework. Hasan Zulkifli reviews these pluralistic approaches and identifies best practice. With examples, case studies and practical discussions based on IFIs in Malaysia, the GCC countries of Bahrain, UAE, Qatar, Kuwait and Saudi Arabia and the UK. Topics covered include; The theory behind corporate and Shari'ah governance; The regulatory framework for Shari'ah governance; Shari'ah governance approaches; The Shari'ah Board's role and how it retains its independence, transparency and competence; The operational procedures of Shari'ah governance;

The effectiveness of the Shari'ah Board and how it could be improved

A Guide to Islamic Asset Management Cambridge Scholars Publishing

Unprecedented economic growth and wealth accumulation in predominately Muslim countries have prompted many financial institutions in the US and Europe to position their investment teams across the Middle East and Asia to be closer to the markets in which they invest, and to take advantage of asset-gathering opportunities. This growth has also encouraged an increasing number of western industrialised countries to adopt legislation that responds to the requirements of the Muslim investment community. To be effective in these markets it is essential that professionals have an understanding of how Shari'a legal principles are applied in the financial sector. Failure to do so exposes them and their clients to potential financial, legal and reputational pitfalls. The Chancellor Guide to the Legal and Shari'a Aspects of Islamic Finance is the first professional reference to focus specifically on the legal dimension of Islamic Finance. The guide brings together nineteen Islamic Finance legal practitioners and advisers to provide a comprehensive yet practical legal perspective on the subject. Each contributor draws on several years' hands-on experience in Islamic Finance product development and advice to leading financial institutions to provide a real-world, contemporary assessment of the key legal issues in Islamic Finance. The guide's hands-on approach and accessible style make it required reading for everyone with a professional interest in Islamic Finance, be they lawyers, accountants, regulators, bankers or investors. It is also a unique reference for academic institutions worldwide.

Risk Management Implementation and Solutions for Islamic Banking and Finance International Monetary Fund

This book covers the recent literature concerning Islamic banking and finance (IBF), focuses on the history of IBF since its inception and introduces the latest innovative concepts and practices in the field. The authors cover important topics such as the role of ownership, Shari'ah compliance and governance structures in raising debt capital using IBF practices, including Fatwa issues and the use of benchmarking practices. The book also addresses topics like archival data, the influence of leverage on ownership structure, and sukuk structures, as well as misconceptions, threats, challenges and opportunities in IBF. Finally, the book deals with prominent issues such as business score-carding, Takaful (Islamic Insurance), IBF implications for block-chain-based fintech and finance hub concepts in Islamic microfinance models. This edited volume is an important contribution to the IBF literature as

it provides a much-needed in-depth look into industry practices through the perspective of corporate finance and governance. With its interdisciplinary approach covering legal and financial issues along with a wide variety of notable contributors, this book will be a valuable reference guide to both teachers and students of Islamic banking and economics.

Dilemmas and Challenges in Islamic Finance Cambridge University Press

In *Frequently Asked Questions in Islamic Finance*, industry expert Brian Kettell answers some of the most frequently asked questions from his many years experience in working and teaching in Islamic finance and banking. From knowledge of the Qu'ran and Sharia'a Law, to new and old Islamic financial concepts, Islamic terms, and Islamic financial instruments and services, this book covers all the key areas that practitioners need to Islamic finance. The book addresses individual questions such as "what is Takaful?", and provide answers with a clear overview of the product or service, and an example, or illustration where appropriate, of how they work in practice. The book also features a question and answer section for readers to test and build their knowledge of the area. Light, entertaining and varied in its approach, *Frequently Asked Questions in Islamic Finance* will prove popular for experienced practitioners and novices alike.

Modern Islamic Banking BRILL

A leading Islamic finance banker sheds light on an industry with growing global influence: "A superb introduction to a fascinating subject" (Financial Times) A trillion-dollar financial industry has revolutionized the global economy. Governments and corporations across the Islamic world have turned to finance that complies with Shari'a law in order to fund economic growth. Even in the West, Islamic finance became an important alternative source of funding when the conventional finance industry was reeling from the effects of the financial crisis. From its origins in the seventh century, Islamic finance has sought to develop core ethical principles that are based in the foundations of Islam and Shari'a. But with an increasing Western interest, is it able to remain true to the principles of its faith? Can it maintain its ideals of social justice? Or is Islamic finance guilty of the very dangers it seeks to avoid. In *Heaven's Bankers*, Harris Irfan, one of the world's leading Islamic finance bankers, gives unparalleled insight into the heart of this secretive industry. From his personal experience of working with leading bankers, scholars and lawyers, he debunks the myths of Islamic banking, analyzes its greatest deals, and looks to the future of a system that has reprioritized the very nature of money itself.

Islamic Banking Regulation and Supervision Lulu.com

Although the principles of Shari'ah require banks and financial institutions to be structured on an interest-free basis, this does not mean that such institutions are charitable concerns. As long as a person advancing money expects to share in the profits earned (or losses incurred) by the other party, a stipulated proportion of profit is legitimate. The

philosophy is enshrined in the traditional Islamic concepts of musharakah and mudarabah, along with their specialized modern variants murabahah, ijarah, salam, and istisna'. This invaluable guide to Islamic finance clearly delineates the all-important distinctions between Islamic practices and conventional procedures based on interest. Justice Usmani of Pakistan, who chairs several Shari'ah supervisory boards for Islamic banks, clearly explains the various modes of financing used by Islamic banks and non-banking financial institutions, emphasizing the necessary requirements for their acceptability from the Shari'ah standpoint and the correct method for their application. He deals masterfully with practical problems as they arise in the course of his presentation, and offers possible solutions in each instance.

Derivatives in Islamic Finance Bloomsbury Academic

This original book examines how investment theory and regulatory constraints are linked to the professional processes of portfolio investments, and how the principles of Islam as defined by sharia fit into these processes. It also explores the measures required to create and grow a global Islamic asset management industry.

Case Studies in Islamic Banking and Finance Edward Elgar Pub

Gain insight into the unique risk management challenges within the Islamic banking system *Risk Management for Islamic Banks: Recent Developments from Asia and the Middle East* analyzes risk management strategies in Islamic banking, presented from the perspectives of different banking institutions. Using comprehensive global case studies, the book details the risks involving various banking institutions in Indonesia, Malaysia, UAE, Bahrain, Pakistan, and Saudi Arabia, pointing out the different management strategies that arise as a result of Islamic banking practices. Readers gain insight into risk management as a comprehensive system, and a process of interlinked continuous cycles that integrate into every business activity within Islamic banks. The unique processes inherent in Islamic banking bring about complex risks not experienced by traditional banks. From Shariah compliance, to equity participation contracts, to complicated sale contracts, Islamic banks face unique market risks. *Risk Management for Islamic Banks* covers the creation of an appropriate risk management environment, as well as a stage-based implementation strategy that includes risk identification, measurement, mitigation, monitoring, controlling, and reporting. The book begins with a discussion of the philosophy of risk management, then delves deeper into the issue with topics like: Risk management as an integrated system The history, framework, and process of risk management in Islamic banking Financing, operational, investment, and market risk Shariah compliance and associated risk The book also discusses the future potential and challenges of Islamic banking, and outlines the risk management pathway. As an examination of the wisdom, knowledge, and ideal practice of Islamic banking, *Risk Management for Islamic Banks* contains valuable insights for those active in the Islamic market.

Handbook of Islamic Banking John Wiley & Sons

A practical guide for robust shar?'ah governance of the Islamic banking industry Debate in the market on the extent of shar?'ah

compliance of Islamic banks, their products, and activities has piqued stakeholders' interest. In *Foundations of Shar'ah Governance of Islamic Banks*, Karim Ginena and Azhar Hamid explore the depths of shar'ah governance to unravel its mysterious dimensions, and equip academics and practitioners with a solid understanding of the subject, which has become a serious challenge and thus deserves dedicated attention. The authors make a strong case for the need to contain the shar'ah risk that Islamic banks experience, and present a compelling argument for how this should be done. Ginena and Hamid propose a robust shar'ah governance model that comprehensively tackles this risk, and helps improve the extent of shar'ah compliance of market players. The authors detail the internal, external, and institutional arrangements needed to promote responsible shar'ah governance, and critically analyze current laws, regulations, and industry practices on the topic. The chapters of the book do the following: Examine the roots, characteristics and objectives of shar'ah and its relation to financial dealings; Probe the role of regulators in shar'ah governance, explore the different approaches adopted by banking supervisors, and provide examples of relevant legal and regulatory measures; Explain to bank directors and management the fiduciary duty they assume with respect to shar'ah compliance, and detail how they could discharge this responsibility in line with best practices; Elaborate on the purpose of the Shar'ah Supervisory Board (SSB), its responsibilities, competence criteria, internal regulations, and key governance guidelines; additionally, they explore different SSB models; Describe the internal shar'ah control system including its six components, and examine the internal shar'ah audit function as well as different stages of conducting a shar'ah audit; Clarify the role of a shar'ah auditor, with guidance on reporting lines, scope of duties, authority, and practical ways on fulfilling tasks, such as a sample shar'ah risk assessment grid and audit checklists; Discuss the newly emerging external shar'ah advisory firms that are expected to play a key role in the coming years and the services they provide. Through an effective treatment of each of these elements, and the way that they interact with one another, the book offers a fresh take on how robust shar'ah governance of Islamic banks can be successfully accomplished. It is a comprehensive resource for academics, regulators, directors, lawyers, auditors, consultants, employees, and customers of

Islamic banks interested in learning more about these challenges. This essential reading persuasively extends the discourse on the subject and addresses critical shar'ah issues that have policy implications for decision makers in jurisdictions aiming to attract the fast-growing Islamic finance industry or increase their market share.

Introduction to Islamic Finance Edinburgh University Press
The phenomenal growth of Islamic finance in the last few decades has been accompanied by a host of interesting questions and challenges. One of the critical challenges is how Islamic financial institutions can be motivated to participate in the 'equity-like' profit-and-loss sharing (PLS) contracts. It is observed that Islamic banks are reluctant to participate in the pure PLS scheme which is manifested by the rising concentration of investment on murabaha or mark-up financing. This phenomenon has been the hotbed of academic criticism on the contemporary practice of Islamic banking. This book explains the 'murabaha syndrome' in light of the incentive provided by the current institutional framework and what are the changes required in the governance structure to mend this anomaly.

Mastering Islamic Finance: A practical guide to Sharia-compliant banking, investment and insurance FT Press

Islamic banking has seen rapid growth during the last two decades. This is a result of the liberalization of financial regulation, the globalization of financial markets, technological changes, product innovation, the birth of several new Islamic States, and a growing Islamic presence in the West, among other factors. New innovations have allowed economists and religious scholars to bring new products to almost all areas of banking and insurance, products which would previously have been extremely controversial. This book provides a better understanding of the Muslim community around the world of Islamic economics and its importance, especially in these days of financial crisis. The book will also serve as a reference manual for teaching the theory and practice of Islamic banking and Islamic financial innovations around the world. Islamic finance courses at universities are highly important since Islamic financial innovations remain very limited, and additional efforts have to be made in this area.

On Islamic Banking, Performance and Financial Innovations World Scientific
To truly understand the current interest in the development of Islamic banking and finance in South-East Asia and how it is different from the conventional banking system, one must first understand the religious relationship originating from the Qur'an, and then trace the historical geographic and political developments of Islam over recent centuries. Only

on this basis can the reader, without prejudice or cynicism, begin to appreciate Shari'ah law and Islamic jurisprudence. With this platform established in the first part of the book, readers are invited to learn about the financial products and services offered, understand the challenges in their development, and ultimately recognize the significant opportunities that Islamic banking and finance can provide both Muslims and non-Muslims. This second edition contains updates of statistics and dates with regards to the development of Islamic banking in Malaysia, Singapore, Indonesia and Brunei. In particular, the chapter on Singapore details significant developments such as the direction which major banks are taking towards Islamic banking and the increase in Islamic banking products being offered. Although written by a non-Muslim author, this highly-regarded book is being translated into Arabic by a leading Islamic university in the Middle East.

Risk Management for Islamic Banks Edinburgh University Press

Islamic finance is emerging as a rapidly growing part of the financial sector in the Islamic world and is not restricted to Islamic countries, but is spreading wherever there is a sizable Muslim community. According to some estimates, more than 250 financial institutions in over 45 countries practice some form of Islamic finance, and the industry has been growing at a rate of more than 15 percent annually for the past several years. The market's current annual turnover is estimated to be \$70 billion, compared with a mere \$5 billion in 1985, and is projected to hit the \$100 billion mark by the turn of the century. Since the emergence of Islamic banks in the early 1970s, considerable research has been conducted, mainly focusing on the viability, design and operations of a deposit-accepting financial institution, which operates primarily on the basis of profit and loss partnerships rather than interest. This publication provides a comprehensive overview of topics related to the assessment, analysis, and management of various types of risks in the field of Islamic banking. It is an attempt to provide a high-level framework (aimed at non-specialist executives) attuned to the current realities of changing economies and Islamic financial markets. This approach emphasizes the accountability of key players in the corporate governance process in relation to the management of different dimensions of Islamic financial risk.

Islamic Banking & Finance in South-East Asia Edinburgh University Press

A detailed look at the fast-growing field of Islamic banking and finance The Art of Islamic Banking and Finance is a modern American take on what it means to incorporate Islamic finance principles into everyday banking and investment techniques by introducing a new brand of banking for all people of all faiths: The Riba-Free (RF) banking. The author is considered the father of RF (Islamic) banking in America. He has been a banker and an

Imam/scholar for over 40 years in America since 1968. He started the tedious process with a finance company, LARIBA, in Pasadena, California in 1987. This is the first book ever in the field to trace the origins of prohibiting the renting of money at a price called interest rate and over-indulging in debt. The book reviews in great details the theological foundations of prohibiting interest in the Jewish Bible, the Christian Bible, and the Qur'aan. The author then discusses money and how fiat money is created, the role of the Federal Reserve, and the banking system in America. The book also discusses for the first time ever how to include an important aspect of RF (Islamic) finance using commodity indexation and marking the items to be financed to market in order to avoid participating in economic "bubbles." The author discusses how these rules work, how they affect consumer behavior, and how they change the role of the banker/financier. Covers a new pioneering model that is based on the Law (Shari'aa) and how it is applied in every transaction from joint ventures and portfolio management to home mortgages and personal financing Shows how to incorporate the Law (Shari'aa) into American financing and banking systems Points to RF (Islamic) finance and banking as a way to emphasize socially responsible investing The Art of Islamic Banking and Finance also includes a discussion on the emergence of a culture of RF (Islamic) banking and finance today, which is based on the real Judeo-Christian-Islamic spirit and very effective when compared to twentieth-century models that use financial engineering and structuring techniques to circumvent the Law (Shari'aa). The book also includes case studies based on the actual experience of the author and detailed analysis of the superior results realized by applying this new brand of banking to financing.

Islamic Finance Harriman House Limited

Based around 13 individual cases, this book will stimulate discussion and develop the reader's understanding of Islamic finance by contrasting their existing theoretical knowledge against practical examples.

Shari'ah Governance in Islamic Banks John Wiley & Sons

The Handbook of Islamic Banking comprises 25 studies by leading international experts on Islamic banking and finance specially commissioned to analyse the various debates and the current state of play in the field. From its origins thirty years ago, Islamic banking has expanded rapidly to become a distinctive and fast growing segment of the international banking and capital markets. Despite this expansion, Islamic banking still remains poorly understood in many parts of the Muslim world and continues to be a mystery in much of the West. This comprehensive Handbook provides a succinct analysis of the workings of Islamic banking and finance, accessible to a wide range of readers. At the same time, it seeks to bring the current research agenda and the main issues on Islamic banking before a wider audience. Islamic banking offers, as an alternative to conventional interest-based financing methods, a wide variety of financial instruments and investment vehicles based on profit-and-loss sharing arrangements. These are all explored in detail along with other subjects such as governance and risk management, securities and investment, structured financing, accounting and regulation, economic development and globalization. M. Kabir Hassan, Mervyn Lewis and the other contributors have created an authoritative and original reference work, which will contribute to a wider understanding of Islamic banking as well as provoking further discussion and research. It will be invaluable to all scholars, researchers and policymakers with an interest in this subject.
