Manufacturing Facilities

Design and Material

Handling

This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved,

such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and

ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

Pull down the shades—and BEWARE!

It's time to read the favorite scary stories of R.L.

Stine, bestselling children's author and master of the

spooky tale. R.L. Stine has gathered a selection of all things scary, and even added two new tales of his own! Short stories, fables old and new, comics, and poems. It's a spine-tingling collection of work by dozens of writers and artists who are famous for hair-raising fun. Discover a ghastly secret in a

retelling of the classic story "The Judge's House," by Bram Stoker. Peek into a Christmas stocking that holds a shocking surprise in a Vault of Horror comic, "A Sock for Christmas." Meet an ice-cream man who will chill your blood in "Mister Ice Cold" by Gahan Wilson. But first, visit an evil carnival in "The

Black Ferris," by Ray Bradbury. R.L. Stine says that this story changed his life! Be sure to read all the introductions—because R.L. reveals why he picked these stories just for you, and why he finds them the creepiest ... the funniest ... the scariest! BEWARE!
