Memoirs of Georgia Icon Learning Systems Llc

A Grand Master of the British-style detective story brings Victorian England to vivid life in this murder mystery, which critic Anthony Boucher hailed as a "faultless formal puzzle in detection" In 1865, novelist Clive Strickland is relaxing at his club when his friend Victor Damon comes to him in a panic, begging Clive to help him marry off his sister to a cash-poor marquis whose affections reek of gold-digging. Victor doesn't care. Something sinister lurks at High Chimneys and he wants his sisters out of the house before their lives are put in danger. Old Matthew Damon, their father, has long been dogged by scandalous rumors of solitary visits to the cells of women about to be hanged for murder. But when murder is done at High Chimneys, Strickland and private investigator Jonathan Whicher will have to sort out the rumors and look behind the discreetly

drawn curtains of High Chimneys for a killer.

The Lost River Cengage Learning
Written by Charles C. Jones, Jr., the
19th century's foremost historian of
Georgia and former mayor of

Savannah, *The Dead Towns of Georgia* is an insightful look into the history of Georgia through a detailed examination of towns that flourished and then faded away. With specific emphasis on the colonial period, the work explores the role Georgia's settlers played in conflicts with Spanish and British colonial powers, as well as the economic and social factors that caused these towns to thrive, but ultimately not to survive. Specific focus is given to the towns of Old Ebenezer (1733) on the Savannah River, Frederica (1735) on St. Simon's Island, Abercorn (1733) on a tributary of the Savannah, Sunbury (1758) on the

Medway River, and Hardwick (1755) resources in order to tell the story on the Ogeechee River, but the communities of Petersburg, Jacksonborough, and Francisville, among others, are also mentioned. With extensive citations and footnotes, as well as maps of several of the communities, this is a valuable resource to anyone interested in the history of the South or in the development and dissolution of towns' Ä ¶ what makes a town survive and thrive, or what makes people move on elsewhere. Excerpt from *Widow Guthrie: A Novel*

Duncan Guthrie was a graduate Of Yale. A lawyer, he gave promise of making a good professional career if he Should rid himself of some drawbacks which were attributed to the well-known fact Of being his mother's favorite, expectant of a large fortune from her and an other from his father-in-law. About five feet ten, fair excellently rounded in Shape, always tasteful in dress, fascinating in speech, he had won Alice Ludwell more easily perhaps because the seriousness in her being had need to be joined with what it felt to be wanting. Of medium height, not a blonde, yet not quite a brunette, her smooth white face that lit up sometimes, not very Often, with redness, harmonized with her brown hair and browner eyes. Her voice was sweet, and when she smiled, whether while talking or listening, people regarded her as beautiful as she was lovely. The Indian subcontinent was the scene of dramatic upheavals a few thousand years ago. The Northwest region entered an arid phase, and erosion coupled with tectonic events played havoc with river courses. One of them disappeared. Celebrated as -Sarasvati'

in the Rig Veda and the Mahabharata, this river was rediscovered in the early nineteenth century through topographic explorations by British officials. Recently, geological and climatological studies have probed its evolution and disappearance, while satellite imagery has traced the river's buried courses and isotope analyses have dated ancient waters still stored under the Thar Desert. In the same Northwest, the subcontinent's first urban society—the Indus civilization—flourished and declined. But it was not watered by the Indus alone: since Aurel Stein's expedition in the 1940s, hundreds of Harappan sites have been identified in the now dry Sarasvati's basin. The rich Harappan legacy in technologies, arts

and culture sowed the seeds of Indian civilization as we know it now. Drawing from recent research in a wide range of disciplines, this book discusses differing viewpoints and proposes a harmonious synthesis—a fascinating tale of exploration that brings to life the vital role the 'lost river of the Indian desert' played before its waters gurgled to a stop.

Preservation Plan

This book portrays the Himalayan-born River Saraswati, a legendary river that was the lifeline of a progressive and vibrant society for more than three thousand years. Written in simple language and richly illustrated, it highlights the events that resulted in the robbing

of the Saraswati of its water and the end of a wonderful culture. The author weaves a geological narrative out of a mass of data generated by explorers, archaeologists, sedimentologists, geohydrologist, seismologists and remote-sensing specialists. The story explains how a great Himalayan river disappeared and how the Harappan Civilization vanished from the banks of the river Saraswati more than three and half thousand years ago in the wake of tectonic upheavals in the foothills of the Himalaya at a time when the rainfall had drastically declined. And it reveals that nowadays the Saraswati is an extraordinary wide water-less channel coursing through the vast but dry floodplain in western India.
