Sindy Annual 2007 CreateSpace

...Alice finally looked around and said, "What's with the murder room?" "The what?" asked Erica. A chair and a small table, isolated in the center of the living room, stood on top of a plastic sheet. Clippers, scissors, and a hand-held mirror rested on the table. At first glance, it looked awfully suspicious. Maybe it was for the best, thought Alice. She had cancer anyway, might as well get it over with in her best friend's murder room... ALICE MORGAN IS different, a fact she's reminded of every time she loses yet another job or another boyfriend. When she thinks it can't get any worse, she finds out she might have breast cancer. Before she even has a chance to come to grips with the diagnosis, she's offered a job and meets a man who might actually like her for who she is. Now what's she supposed to do?

Build your own intelligent agent system... Intelligent agent technology is a tool of modern computer science that can be used to engineer complex computer programmes that behave rationally in dynamic and changing environments. Applications range from small programmes that intelligently search the Web buying and selling goods via electronic commerce, to autonomous space probes. This powerful technology is not widely used, however, as developing intelligent agent software requires high levels of training and skill. The authors of this book have developed and tested a methodology and tools for developing intelligent agent systems. With this methodology (Prometheus) developers can start agent-oriented designs and implementations easily from scratch saving valuable time and resources. Developing Intelligent Agent Systems not only answers the questions "what are agents?" and "why are they useful?" but also the crucial question: "how do I design and build intelligent agent systems?" The book covers everything a practitioner needs to know to begin to effectively use this technology - including an introduction to the notion of agents, a description of the concepts involved, and a software engineering methodology. Read on for: a practical step-by-step introduction to designing and building intelligent agent systems. a full life-cycle methodology for developing intelligent agent systems covering specification, analysis, design and implementation of agents. "Anchor. Author. Mom." What you don't normally see on television from journalist Molly Grantham is how behind the polished image, she's juggling to keep the balls of life up in the air. *The Juggle is Real* shines a raw and funny light on the messy realities so many of us face: the constant rotation of whatever's barreling toward us next. Grantham's first book, *Small Victories*, ended beside her mother's hospice bed. That's where this one begins-seeing the circle of life through her children's eyes. From there, it's a chronicle of ups and downs, including endless arguments over what to wear, emergency surgeries, beloved pets, and the hysterical one-kid parade of her son's battery-operated mini ice-cream truck through busy city streets. All interwoven with Grantham's public and often nutty

Grantham is real. And her authenticity as a mom and a fallible human being shines through every one of her pages in this compelling collection of parenting essays." - The Huffington Post "Am I brave enough to admit my mothering-fail moments to the world, especially a world in which people are viciously judgmental about other people's parenting? And even more, would I be willing to do that if I worked in an industry where a polished, perfect appearance is part of the job description? I'm not sure. But thank God, Molly is." Kimmerly Martin, Author, *The Queen of Hearts* and *The Antidote to Everything* "With humor, heart, and a willingness to bare her soul-even when it might seem a little uncomfortable to do so-Molly proves once again that she is gifted at telling tales at motherhood as she is at delivering the news every night." Theoden James, Charlotte Observer "The Juggle is Real deftly captures moments of parenthood and life that are so poignant and beautiful that it stops your heart for a beat."
