This boxed set includes the first 3 books in the Shattered Promises series. Shattered

Promises (Shattered Promises, #1): (A re-imagining of my young adult book, The Fallen Star, told as a New Adult Paranormal.) For twenty-one year-old Gemma, life has never been normal. She knows nothing about her past and has been haunted by the same monsters in her nightmares for the last few months. Unemotional and numb to life, she feels disconnected from everyone. Until the very first day she cries. After that, nothing in her life is the same. Her life only gets more complicated

when she meets Alex. Sexy, arrogant, and secretive, Alex can get under Gemma's skin like no one can. Yet she's drawn to him by an invisible connection she has no control over. She's also seen him before. In her nightmares. Every part of Gemma's mind is screaming at her to stay away from Alex, but every other part of her is begging to get close to him. But the closer she gets, the more she realizes Alex knows more about her than he originally let on. As secrets about her past unravel,

---

Gemma's life becomes threatened. She needs to figure out what's going on, before she winds up dead. But the only person she can turn to for answers is the one person she isn't sure she can trust. Fractured Souls (Shattered Promises, #2): (A re-imagining of my young adult book, The Underworld (Fallen Star Series, Book 2) told as a New Adult Paranormal). Gemma thought she had said her good-byes and had felt every possible emotion she could before her soul was detached again.

Deep down inside, she hoped she'd never wake up from it because, in her eyes, life without emotion and memories isn't worth living. But she does wake up and discovers she can still feel and remember everything she experienced over the last few months. Alex is also telling her that everything's okay, that he didn't betray her, and that what she thought happened really didn't. Gemma isn't sure if she can trust Alex, so she tries to keep her distance from him, even though the electric

connection and her desire make it nearly impossible. The only person she can trust is Laylen, but even that becomes complicated when the lines of their friendship begin to blur. While Gemma struggles with her emotions and relationships, she searches for her mother, entering a dangerous world of secrets, seduction, and evil. The further she digs into her mother's secrets and past, the more she wonders what waits for her at the end of her search and if maybe some things are better left in the

story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. And to make matters worse, the woman he loves thinks he's hung up on his past. Kazue's reincarnation has complicated his life, in more ways than one. He and Suzume need to be united in their fight against Hisato. While they squabble, Hisato's grip tightens on Akatsuki and his influence reaches farther. They have to defeat Hisato before his monstrous army grows too powerful and conquers all of Akatsuki. Sealing Hisato requires resonance between all four fragments of Kazue's soul. To defeat against Hisato, they have to capture the water of Kazue's soul first. But when one of their own betrays them, it turns all their plans upside down. As anarchy consumes Akatsuki, their last hope lies in the flames of vengeance burning in Suzume's heart. But is she alone enough to defeat the darkness?

From acclaimed economists George Akerlof and Robert Shiller, the case for why government is needed to restore confidence in the economy

The global financial crisis has made it painfully clear that powerful psychological forces are imperiling the wealth of nations today. From blind

---

faith in ever-rising housing prices to plummeting confidence in capital markets, "animal spirits" are driving financial events worldwide. In this book, acclaimed economists George Akerlof and Robert Shiller challenge the economic wisdom that got us into this mess, and put forward a bold new vision that will transform economics and restore prosperity. Akerlof and Shiller reassert the necessity of an active government role in economic policymaking by recovering the idea of animal spirits, a term John Maynard Keynes used to describe the gloom and despondence that led to the Great Depression and the changing psychology that accompanied recovery. Like Keynes, Akerlof and Shiller know that managing these animal spirits requires the steady hand of government—simply allowing markets to work won't do it. In rebuilding the case for a more robust, behaviorally informed Keynesianism, they detail the most pervasive effects of animal spirits in contemporary economic life—such as confidence, fear, bad faith, corruption, a concern for fairness, and the stories we tell ourselves about our economic fortunes—and show how Reaganomics, Thatcherism, and the rational expectations revolution failed to account for them. *Animal Spirits* offers a road map for reversing the financial

---

misfortunes besetting  
us today. Read it and  
learn how leaders can  
channel animal  
spirits—the powerful  
forces of human  
psychology that are  
afoot in the world  
economy today. In a new  
preface, they describe  
why our economic  
troubles may linger for  
some time—unless we are  
prepared to take  
further, decisive  
action.

The moment Allison's mouth hits mine, I know there's no going back. Just one taste of her turns me into an addict. Even though I know I'm not good enough for her, once I've had her in my bed, I know I'm not giving her up. Warning: This story includes so much sweetness from the strawberry lemonade cupcakes to the sexy giant of a baker you might end up with cavities. There are meddling best friends, an older brother who needs to get his own life, and so much frosting used in inappropriate ways you'll probably die of embarrassment. Or I will. Maybe not. Listen, just buy the book and get ready for sweet, hot, over the top kind of romance that will leave you craving for more than cupcakes. You're welcome.

**Breaking Nova**

Jessica Sorensen

Since Plato, philosophers have described the decision-making process as either rational or emotional: we carefully

---

deliberate or we  
'blink' and go with  
our gut. But as  
scientists break  
open the mind's  
black box with the  
latest tools of  
neuroscience,  
they're discovering  
this is not how the  
mind works. Our  
best decisions are  
a finely tuned  
blend of both  
feeling and reason  
- and the precise  
mix depends on the  
situation. When

buying a house, for  
example, it's best  
to let our  
unconscious mull  
over the many  
variables. But when  
we're picking  
stocks and shares,  
intuition often  
leads us astray.  
The trick is to  
determine when to  
lean on which part  
of the brain, and  
to do this, we need  
to think harder  
(and smarter) about  
how we think.

Salt Sugar Fat is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential
