#1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help

of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

Curse Breaker Books 1-3 Scholastic UK

This book studies human rights discourse across a variety of graphic novels, both fiction and non-fiction, originating in different parts of the world, from India to South Africa, Sarajevo to Vietnam, with texts on the Holocaust, the Partition of the Indian subcontinent, the Rwandan and Sarajevan genocides, the Vietnam War, comfort women in World War II and the Civil Rights movement in the USA, to mention a few. The book demonstrates the emergence of the 'universal' subject of human rights, despite the variations in contexts. It shows how war, rape, genocide, abuse, social

iniquity, caste and race erode personhood in multiple ways in the graphic novel, which portrays the construction of vulnerable subjects, the cultural trauma of collectives, the crisis and necessity of witnessing, and resilience-resistance through specific representational and aesthetic strategies. It covers a large number of authors and artists: Joe Sacco, Joe Kubert, Matt Johnson-Walter Pleece, Guy Delisle, Appupen, Thi Bui, Olivier Kugler and others. Through a study of these vastly different authors and styles, the book proposes that the graphic novel as a form is perfectly suited to the 'culture' and the lingua franca of human rights due to its amenability to experimentation and the sheer range within the form. The book will appeal to scholars in comics studies, human rights studies, visual culture studies and to the general reader with an interest in these fields. *The Human Rights Graphic Novel* Melinda Kucsera

How to Avoid a Climate Disaster Scholastic Inc.
A classic work of American theatre, based on the

Scopes Monkey Trial of 1925, which pitted Clarence Darrow against William Jennings Bryan in defense of a schoolteacher accused of teaching the theory of evolution. The accused was a slight, frightened man who had deliberately broken the law. His trial was a Roman circus. The chief gladiators were two great legal giants of the century. Like two bull elephants locked in mortal combat, they bellowed and roared imprecations and abuse. The spectators sat uneasily in the sweltering heat with murder in their hearts, barely able to restrain themselves. At stake was the freedom of every American. One of the most moving and meaningful plays of our generation. Praise for *Inherit the Wind* "A tidal wave of a drama."—New York World-Telegram And Sun "Jerome Lawrence and Robert E. Lee were classic Broadway scribes who knew how to crank out serious plays for thinking Americans. . . . *Inherit the Wind* is a perpetually prescient courtroom battle over the legality of teaching evolution. . . . We're still arguing this case — all the way to the White House." —Chicago Tribune "Powerful . . . a crackling good courtroom play . . . [that] provides two of the juiciest roles in American theater." —Copley News Service "[This] historical drama . . . deserves respect." —The Columbus Dispatch

Far From the Tree Montlake Romance
When Ada Calhoun found herself in the throes of a midlife crisis, she thought that she had no right to complain. She was married with children and a good career. So why did she feel miserable? And why did it seem that other Generation X

women were miserable, too? Calhoun decided to find some answers. She looked into housing costs, HR trends, credit card debt averages, and divorce data. At every turn, she saw a pattern: sandwiched between the Boomers and the Millennials, Gen X women were facing new problems as they entered middle age, problems that were being largely overlooked. Speaking with women across America about their experiences as the generation raised to "have it all," Calhoun found that most were exhausted, terrified about money, under-employed, and overwhelmed. Instead of their issues being heard, they were told instead to lean in, take "me-time," or make a chore chart to get their lives and homes in order. In *Why We Can't Sleep*, Calhoun opens up the cultural and political contexts of Gen X's predicament and offers solutions for how to pull oneself out of the abyss—and keep the next generation of women from falling in. The result is reassuring, empowering, and essential reading for all middle-aged women, and anyone who hopes to understand them.
