Curse of the Vampire Ann Gimpel Books LLC  
The media vampire has roots throughout the world, far beyond the shores of the usual Dracula-inspired Anglo-American archetypes. Depending on text and context, the vampire is a figure of anxiety and comfort, humor and fear, desire and revulsion. These dichotomies gesture the enduring prevalence of the vampire in mass culture; it can no longer articulate a single feeling or response, bound by time and geography, but is many things to many people. With a global perspective, this collection of essays offers something new and different: a much needed counter-narrative of the vampire's evolution in popular culture. Divided by geography, this text emphasizes the vampiric as a globetrotting citizen du monde rather than an isolated monster.

Presented here are translations of the works of six of the most able contemporary Welsh-language poets, writing in styles varying from vers libre to the ancient strict metres. These poets include Bobi Jones, Menna Elfyn, Emyr Lewis, Iwan Llwyd, Gwyneth Lewis, and Elin ap Hywel. "In this accessible and engaging introduction, [John Lennox] guides us through the great debates about science and faith, and offers incisive assessments of the issues." Alister McGrath,

Professor of Science and Religion, University of Oxford Is the rigorous pursuit of scientific knowledge really compatible with a sincere faith in God? Building on the arguments put forward in *God's Undertaker: Has Science Buried God?*, Prof John Lennox examines afresh the plausibility of a Christian theistic worldview in the light of some of the latest developments in scientific understanding. Prof Lennox focuses on the areas of evolutionary theory, the origins of life and the universe, and the concepts of mind and consciousness to provide a detailed and compelling introduction to the science and religion debate. He also offers his own reasoning as to why he continues to be convinced by a Christian approach to explaining these phenomena. Robust in its reasoning, but respectful in tone, this book is vital reading for anyone exploring the relationship between science and God.

In part a homage to Bob Dylan, the classic American road trip is ironically paralleled to a visit to the underworld in this reverent and curious poetic journey across the United States. From the marginal clays and farms of the poet's hometown to the mountains and deserts of the American southwest, this wistful and wise collection offers poems that are fiercely honest and contain a wide variety of images, from science to religion to American life since 9/11.

In the twenty-first century, the romance genre has gained a growing academic response, including the creation of the International Association for the Study of Popular Romance. Popular romance has long been so ignored and maligned that seemingly every scholarly work on it opens with a lengthy defense of the genre and its value for academic study. Even the early

scholarly works on the genre approach it in ways that, while primarily respectful, make sweeping generalizations about popular romance, its texts, and its readers. This essay collection examines the position of the romance genre in the twenty-first century, and the ways in which romance responds to and influences the culture and community in which it exists. Essays are divided into six sections, which cover the genre's relationship with masculinity, the importance of consent, historical romance, representation, social status and web-based romance fiction.

This insightful study examines the strategies used by outsiders to usurp Hawaiian lands and undermine indigenous Hawaiian culture. Drawing upon historical and contemporary examples, Houston Wood investigates the journals of Captain Cook, Hollywood films, commercialized hula, Waikiki development schemes, and the appropriation of Pele and Kilauea by haoles to explore how these diverse productions all displace Native culture. Yet, the author emphasizes the voices that have never been completely silenced and can be heard asserting themselves today through songs, chants, literature, the internet, and the Native nationalist sovereignty movement. This impassioned argument about the linkages between textual and physical displacements of Native Hawaiians will engage all readers interested in Pacific literature and postcolonial studies.

1200 pages of spellbinding dystopian urban fantasy. In a world with few choices, evil runs rampant and none of the old rules apply. What began as an exploratory mission to see if anything is left on Earth turns sour fast. A Vampire attack, a possessed priest, and a gateway to Hell mean fallout from the spell gone bad that pinned everyone in South America is far from finished. Retreat is tempting, but nowhere is safe. Evil is leaching in from somewhere. If they can't find the breach, they're finished. Deceived Vampires aren't supposed to feel anything beyond hunger and bloodlust, but Viktor still feels a whole lot. He hates what he's become, but there's no escape. Not from the dying city smothering him, or from his maker, an arrogant tyrant who demands absolute loyalty. Twisted The sea is the only life Juan's ever known—not counting the decade he spent as a Vampire. Those years gave him a healthy aversion for anything supernatural, but he's a shifter now. It's way better than being one of the undead, but he still doesn't trust magic. Paired up with Aura to teach him, he falls and falls hard, but she spurns his advances. Abandoned Recco misses his cozy lab and well-organized veterinary clinic, but ten years as a Vampire stripped him of any illusions. Life is done handing him everything he wants. He could rail against fate—which never bought him much—or suck it up and keep going. Defeating the Cataclysm broke Vampirism's hold on him, though. Even better, it threw Zoe square in his path and kicked open the door for him to bond with a wolf.
