"George Black rediscovers the history and lore of one of the planet's most magnificent landscapes. Read *Empire of Shadows*, and you'll never think of our first—in many ways our greatest—national park in the same way again." —Hampton Sides, author of *Blood and Thunder* *Empire of Shadows* is the epic story of the conquest of Yellowstone, a landscape uninhabited, inaccessible and shrouded in myth in the aftermath of the Civil War. In a radical reinterpretation of the nineteenth century West, George Black casts Yellowstone's creation as the culmination of three interwoven strands of history - the passion for exploration, the violence of the Indian Wars and the "civilizing" of the frontier - and charts its course through the lives of those who sought to lay bare its mysteries: Lt. Gustavus Cheyney Doane, a gifted but tormented cavalryman known as "the man who invented Wonderland"; the ambitious former vigilante leader Nathaniel Langford; scientist Ferdinand Hayden, who brought photographer William Henry Jackson and painter Thomas Moran to Yellowstone; and Gen. Phil Sheridan, Civil War hero and architect of the Indian Wars, who finally succeeded in having the new National Park placed under the protection of the US Cavalry. *George Black's Empire of Shadows* is a groundbreaking historical account of the origins of America's majestic national landmark.

A moving exploration of how gay men construct their identities, fight to be themselves, and live authentically It goes without saying that even today, it ’ s not easy to be gay in America. While young gay men often come out more readily, even those from the most progressive of backgrounds still struggle with the legacy of early-life stigma and a deficit of self-acceptance, which can fuel doubt, regret, and, at worst, self-loathing. And this is to say nothing of the ongoing trauma wrought by AIDS, which is all too often relegated to history. Drawing on his work as a clinical psychologist during and in the aftermath of the epidemic, Walt Odets reflects on what it means to survive and figure out a way to live in a new, uncompromising future, both for the men who endured the upheaval of those years and for the younger men who have come of age since then, at a time when an HIV epidemic is still ravaging the gay community, especially among the most marginalized. Through moving stories—of friends and patients, and his own—Odets considers how experiences early in life launch men on trajectories aimed at futures that are not authentically theirs. He writes to help reconstruct how we think about gay life by considering everything from the misleading idea of “ the homosexual, ” to the diversity and richness of gay relationships, to the historical role of stigma and shame and the significance of youth and of aging. Crawling out from under the trauma of destructive early-life experience and the two epidemics, and into a century of shifting social values, provides an opportunity to explore possibilities rather than live with limitations imposed by others. Though it is drawn from decades of private practice, activism, and life in the gay community, Odets ’ s work achieves remarkable universality. At its core, *Out of the Shadows* is driven by his belief that it is time that we act based on who we are and not who others are or who they would want us to be. We—particularly the young—must construct our own paths through life. *Out of the Shadows* is a necessary, impassioned argument for how and why we must all take hold of our futures.
