especially in electronic formats, these tests are increasingly used for speeding-up, standardising and professionalising the task of putting the right people in the right jobs. 'Psychological Testing' is an easy-to-follow guide to the most popular selection tests on the market. It takes a broad, international perspective and explores developments in web-based testing services, which have revolutionised the industry. This book seeks to answer all your key questions, including: For employers,

recruiting consultancies and agencies: - What are the benefits of using psychological testing for your organisation? - Which kinds of tests are available and how should they be used? - What are the specific applications for each of the tests, and their advantages and disadvantages? - What is good - and bad - practice in test usage in recruitment? - Can these tests also be used for subsequent employee deployment and development, such as creating teams, training

needs analysis, and career-planning? For employees and job-seekers: - What happens if you are required to take a selection test? - What will these tests reveal about you? - What do previous test-takers think about each of these tests? - How can you prepare for the process of testing generally? - How can you overcome test phobia, fear of the unknown and a feeling of intrusion? With detailed information on numerous tests, 'Psychological Testing' is your invaluable handbook, whichever side of the desk

## How to Pass Verbal Reasoning Tests

Today's job market is tough; it's dog-eat-dog, ruthless and competitive. Preparation is essential if you want to get the edge. As psychometric testing becomes standard for blue-chip companies to one-man bands this For Dummies guide could mean the difference between success and failure. As the world of HR embraces psychometric testing, more and more people are faced with the daunting prospect of having to sit these mysterious exams. The tests have become the standard way in which employers judge

abilities – your capacity to work with numbers, words and diagrams; your attainment – what you actually know; and your personality – how you're likely to act. Psychometric Testing For Dummies is the essential tool for being prepared and calm. The book takes readers step-by-step through each type of test, what to expect and how to prepare for them. It also offers over 850 sample questions to practice on. Psychometric Testing For Dummies makes these notoriously difficult and confusing tests easy. Psychometric Testing For Dummies includes: Understanding why

psychometric tests are used  
Detailed examination of numerical, verbal, technical and abstract tests  
Full explanation of personality tests  
How to deal with feedback  
Over 850 sample questions  
**Over 550 Practice Questions**  
Oxford University Press on Demand  
Advanced test of non-verbal reasoning ability, ie. a measure of eductive ability or fluid intelligence which is relatively independent of specific learning acquired in a particular cultural or educational context. Test is used as a means of assessing all the analytical and integral operations involved in the

---

higher thought processes and differentiates clearly between people of even superior intellectual ability.

**Essential Practice for English Usage, Critical Reasoning and Reading Comprehension Tests**
