SHL numerical reasoning tests are amongst the most common psychometric tests, and if you are applying for a job, you may well find that you have to take one. There are several free samples around (including on the SHL website), but they rarely give you both the answer to the question and an explanation of how to work it out.

[Practice SHL Numerical Reasoning Test - Grad Tests](#)

Numerical Reasoning – Tests your ability to interpret and use numbers and statistics. You'll be shown some data, probably in the form of a table or graph, and then you must use that information to answer a question. Verbal Reasoning – Evaluates your ability to understand and analyse passages of written information. Usually, you'll be presented with a written passage and, based on that, you must then identify whether a given statement is true or false, or whether it's impossible to say.

Answers and xplanations - Tailored & Verified Practice Tests

Numerical Reasoning tests are used by employers to assess your reasoning ability when it comes to applying for a job. Employers are keen to identify how capable you are at reasoning with numerical information presented in charts, graphs and tables to determine the correct answer to a question.
