Never before has a book examined Spanish women and their mastery of the essay. In the groundbreaking collection Spanish Women Writers and the Essay, Kathleen M. Glenn and Mercedes Mazquiarán de Rodríguez help to rediscover the neglected genre, which has long been considered a "masculine" form. Taking a feminist perspective, the editors examine why Spanish women have been so drawn to the essay through the decades, from Concepción Arenal's nineteenth-century writings to the modern works of Rosa Montero. Spanish women, historically denied a public voice, have discovered an outlet for their expression via the essay. As essayists, they are granted the authority to address subjects they personally deem important, discuss historical and sociopolitical issues, and denounce female subordination. This genre, which attracts a different audience than does the novel or poem, allows Spanish women writers to engage in a direct dialogue with their readers. Featuring twelve critical investigations of influential female essayists, Spanish Women Writers and the Essay illustrates Spanish women writers' command of the genre, their incorporation of both the ideological and the aesthetic into one concise form, and their skillful use of various strategies for influencing their readers. This fascinating study, which provides English translations for all quotations, will appeal to anyone interested in nineteenth- and twentieth-century Spanish literature, comparative literature, feminist criticism, or women's studies.

This is a set of pioneering studies on Chinese encyclopaedias of modern knowledge (1870-1930). At a transitional time when modern knowledge was sought after yet few modern schools were available, these works were crucial sources of information for an entire generation. This volume investigates many of these encyclopaedias, which were never reprinted and are hardly known even to specialists, for the first time. The contributors to this collection all specialize in the period in question and have worked together for a number of years. The resulting studies show that these encyclopaedias open a unique window onto the migration and ordering systems of knowledge across cultural and linguistic borders.

This Text-book traces the evolution of the newspaper, documenting its changing form, style and content as well as identifying the different roles ascribed to it by audiences, government and other social institutions. Starting with the early 17th century, when the first prototype newspapers emerged, through Dr Johnson, the growth of the radical press in the early 19th century, the Lord Northcliffe revolution in the early 20th century, the newspapers wars of the 1930s and the rise of the

tabloid in the 1970s, right up to Rupert Murdoch and the online revolution, the book explores the impact of the newspapers on our lives and its role in British society. Using lively and entertaining examples, Kevin Williams illustrates the changing form of the newspaper in its social, political, economic and cultural context. As well as telling the story of the newspaper, he explores key topics in detail, making this an ideal text for students of journalism and the British newspaper. Issues include: newspapers and social change the changing face of regional newspapers the impact of new technology development of reporting techniques forms of press regulation Spanish Women Writers and the Essay Oxford University Press, USA

Powerful and often controversial, news pictures promise to make the world at once immediate and knowable. Yet while many great writers and thinkers have evaluated photographs of atrocity and crisis, few have sought to set these images in a broader context by defining the rich and diverse history of news pictures in their many forms. For the first time, this volume defines what counts as a news picture, how pictures are selected and distributed, where they are seen and how we critique and value them. Presenting the best new thinking on this fascinating topic, this book considers the news picture over time, from the dawn of the illustrated press in the nineteenth century, through photojournalism's heyday and the rise of broadcast news and newsreels in the twentieth century and into today's digital platforms. It examines the many kinds of images: sport, fashion, society, celebrity, war, catastrophe and exoticism; and many mediums, including photography, painting, wood engraving, film and video. Packed with the best research and full colour-illustrations throughout, this book will appeal to students and readers interested in how news and history are key sources of our rich visual culture.

If you want to write a book that's going to sell to both publishers and readers, you need to know how to produce a marketable work and help it become successful. It starts the moment you have an idea. That's when you begin thinking about the first elements of the business plan that will make your project the best it can be. The reality is that you don't want to spend time and energy writing a book that will never get read. The way to avoid that is to create a business plan for your book, and evaluate it (and yourself) through the same lens that an agent or acquisitions editor would. The Author Training Manual will show you how to get more creative and start looking at your work with those high standards in mind. Whether you're writing fiction or non-fiction, or intend to publish traditionally or self-publish, author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf. Packed with step-by-step instructions, idea

evaluations, sample business plans, editor and agent commentaries, and much more, The Author Training Manual provides the information you need to transform from aspiring writer to career author.

"Indeed, the journalistic achievements of Oliver Goldsmith invite a reconsideration of the man doomed for so many years to play "Doctor Minor" to Johnson's "Doctor Major." Long before he established a reputation as the author of The Vicar of Wakefield, She Stoops to Conquer, and The Deserted Village, Goldsmith was establishing his unique journalistic voice - a voice incredibly diverse, if also frequently self-contradictory. There is no doubt that Goldsmith was something of a controversial figure - working for both of London's monthly book review journals while they were engaged in an ongoing, venomous, and well-publicized dispute. But it is important to remember that he was respected, too. He did serve, after all, as principal contributor to several of London's most successful newspapers and magazine miscellanies. In this capacity, his career intersected with the careers of Arthur Murphy, John Newbery, David Hume, Thomas Gray, Edmund Burke, and the most prominent booksellers, authors, and editors of the period." "As interest in eighteenth-century English journalism continues to accelerate, the critical reputation of Oliver Goldsmith which has been dwindling for years may receive an important boost. Scholars now have a wealth of primary and critical material from which to construct a contextual framework for understanding literary, social, and political developments in eighteenth-century England. Perhaps this wealth of information will lead them to reassess the man who not only exemplified, but also consistently commented on, the state of the press in "High Georgian" England."--BOOK JACKET.

Print and Politics offers a cultural history of a late Qing newspaper, Shibao, the most influential reform daily of its time. Exploring the simultaneous emergence of a new print culture and a new culture of politics in early-twentieth-century China, the book treats Shibao as both institution and text and demonstrates how the journalists who wrote for the paper attempted to stake out a "middle realm" of discourse and practice. Chronicling the role these journalists played in educational and constitutional organizations, as well as their involvement in major issues of the day, it analyzes their essays as political documents and as cultural artifacts. Particular attention is paid to the language the journalists used, the cultural constructs they employed to structure their arguments, and the multiple sources of authority they appealed to in advancing their claims for reform.

This collection is trying to uncover who was this incredible charismatic author, what hides behind the adventurous life anecdotes he wrote about, what were his convictions, dreams and what were his darkest hours. Content: "The Road" is London's account of London's experiences as a hobo in the 1890s, during the worst economic depression the United States had experienced up to that time. "The Cruise of the Snark" chronicles London's sailing adventure in 1907 across the south Pacific in his ketch the Snark. Accompanying London on this voyage was his wife Charmian London and a small crew. "John Barleycorn" is an autobiographical account of Jack London dealing with his enjoyment of drinking and struggles with alcoholism. "The People of the Abyss" describes London's experiences about life in the East End of London in 1902. He wrote this first-hand account after living in the East End for several months, sometimes staying in workhouses or sleeping on the streets. "Martin Eden" is a novel about a young proletarian autodidact, former sailor, struggling to become a writer. Eden is a semi-autobiographical character, based on London himself. "The Mutiny of the Elsinore" - After death of the captain, the crew of a ship split between the two senior surviving mates. The novel is based on London's voyage around Cape Horn on the Dirigo. Short Stories: Tales of the Fish Patrol - As a 16 year old man, Jack London became a member of the California Fish Patrol. These are the stories drawn from his experiences in catching fish poachers. The Human Drift is a collection of short sketches, stories and essays, mostly concerning sailing and London's love for sea. Essays: Through The Rapids on the Way to the Klondike From Dawson to the Sea Our Adventures in Tampico... Jack London was an American novelist, journalist, railroad hobo, gold prospector, sailor, poet, socialist, an oyster pirate, war correspondent and a rancher.

Leading scholars chart the future of studies on technology and journalism in the digital age. The use of digital technology has transformed the way news is produced, distributed, and received. Just as media organizations and journalists have realized that technology is a central and indispensable part of

their enterprise, scholars of journalism have shifted their focus to the role of technology. In *Remaking the News*, leading scholars chart the future of studies on technology and journalism in the digital age. These ongoing changes in journalism invite scholars to rethink how they approach this dynamic field of inquiry. The contributors consider theoretical and methodological issues; concepts from the social science canon that can help make sense of journalism; the occupational culture and practice of journalism; and major gaps in current scholarship on the news: analyses of inequality, history, and failure. Contributors Mike Ananny, C. W. Anderson, Rodney Benson, Pablo J. Boczkowski, Michael X. Delli Carpini, Mark Deuze, William H. Dutton, Matthew Hindman, Seth C. Lewis, Eugenia Mitchelstein, W. News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. *Stop Reading the News* is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling *The Art of Thinking Clearly*, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, *Stop Reading the News* is a welcome voice of calm and wisdom.

The digital revolution has forever changed American journalism, and not for the better. Robert Kaiser, former managing editor of *The Washington Post*, writes in his new Brookings Essay that the changing media landscape is not only a threat to traditional news, but to the future of democracy. A news industry without a viable business model, distracted by the need to attract eyeballs and discover new revenue streams, could lose the ability to provide the balanced, comprehensive, and investigative journalism that is the lifeblood of a healthy democracy. **THE BROOKINGS ESSAY:** In the spirit of its commitment to high-quality, independent research, the Brookings Institution has commissioned works on major topics of public policy by distinguished authors, including Brookings scholars. The Brookings Essay is a multi-platform product aimed to engage readers in open dialogue and debate. The views expressed, however, are solely those of the author. Available in ebook only.
