This is a set of pioneering  
studies on Chinese  
encyclopaedias of modern  
knowledge (1870-1930). At a  
transitional time when modern  
knowledge was sought after  
yet few modern schools were  
available, these works were  
crucial sources of  
information for an entire  
generation. This volume  
investigates many of these  
encyclopaedias, which were  
never reprinted and are  
hardly known even to  
specialists, for the first

time. The contributors to this  
collection all specialize in  
the period in question and  
have worked together for a  
number of years. The resulting  
studies show that these  
encyclopaedias open a unique  
window onto the migration and  
ordering systems of knowledge  
across cultural and linguistic  
borders.

a little easier with this essential guidebook for anyone wanting to write a memoir. Did you know that the #1 thing that baby boomers want to do in retirement is write a book—about themselves? It's not that every person has lived such a unique or dramatic life, but we inherently understand that writing a memoir—whether it's a book, blog, or just a letter to a child—is the single greatest path to self-examination. Through the use of disarmingly frank, but wildly fun tactics that offer you simple and effective guidelines that work, you can stop treading water in writing exercises or hiding behind writer's block. Previously self-published under the title, *Writing What You Know: Raelia*, this book has found an enthusiastic audience that now writes with intent.

This Text-book traces the evolution of the newspaper, documenting its changing form, style and content as well as identifying the different roles ascribed to it by audiences, government and other social institutions. Starting with the early 17th century, when the first prototype newspapers emerged, through Dr Johnson, the growth of the radical press in the early 19th century, the Lord Northcliffe revolution in the early 20th century, the newspapers wars of the 1930s and the rise of the tabloid in the 1970s, right up to Rupert Murdoch and the online revolution, the book explores the impact of the newspapers on our lives and its role in British society. Using lively and entertaining examples, Kevin Williams illustrates the changing form of the newspaper in its social, political, economic and cultural context. As well as telling the story of the newspaper, he explores key topics in detail,

Leading scholars chart the future of studies on technology and journalism in the digital age. The use of digital technology has transformed the way news is produced, distributed, and received. Just as media organizations and journalists have realized that technology is a central and indispensable part of their enterprise, scholars of journalism have shifted their focus to the role of technology. In *Remaking the News*, leading scholars chart the future of studies on technology and journalism in the digital age. These ongoing changes in journalism invite scholars to rethink how they approach this dynamic field of inquiry. The contributors consider theoretical and methodological issues; concepts from the social science canon that can help make sense of journalism; the occupational culture and practice of journalism; and major gaps in current scholarship on the news: analyses of inequality, history, and failure.

Never before has a book examined Spanish women and their mastery of the essay. In the groundbreaking collection *Spanish Women Writers and the Essay*, Kathleen M. Glenn and Mercedes Mazquiarán de Rodríguez help to rediscover the neglected genre, which has long been considered a "masculine" form. Taking a feminist perspective, the editors examine why Spanish women have been so drawn to the essay through the decades, from

Concepción Arenal's nineteenth-century writings to the modern works of Rosa Montero. Spanish women, historically denied a public voice, have discovered an outlet for their expression via the essay. As essayists, they are granted the authority to address subjects they personally deem important, discuss historical and sociopolitical issues, and denounce female subordination. This genre, which attracts a different audience than does the novel or poem, allows Spanish women writers to engage in a direct dialogue with their readers. Featuring twelve critical investigations of influential female essayists, *Spanish Women Writers and the Essay* illustrates Spanish women writers' command of the genre, their incorporation of both the

ideological and the aesthetic into one concise form, and their skillful use of various strategies for influencing their readers. This fascinating study, which provides English translations for all quotations, will appeal to anyone interested in nineteenth- and twentieth-century Spanish literature, comparative literature, feminist criticism, or women's studies.

The instant New York Times bestseller and publishing phenomenon: Marina Keegan's posthumous collection of award-winning essays and stories "sparkles with talent, humanity, and youth" (O, The Oprah Magazine). Marina Keegan's star was on the rise when she graduated magna cum laude from Yale in May 2012. She had a play that was to be produced at the New York

Fringe Festival and a job waiting for her at The New Yorker. Tragically, five days after graduation, Marina died in a car crash. Marina left behind a rich, deeply expansive trove of writing that, like her title essay, captures the hope, uncertainty, and possibility of her generation. Her short story "Cold Pastoral" was published on NewYorker.com. Her essay "Even Artichokes Have Doubts" was excerpted in the Financial Times, and her book was the focus of a Nicholas Kristof column in The New York Times. Millions of her contemporaries have responded to her work on social media. As Marina wrote: "We can still do anything. We can change our minds. We can start over... We're so young. We can't, we MUST not lose this sense of possibility because in the end, it's all we have." The Opposite of Loneliness is an unforgettable collection of Marina's essays and stories that articulates the universal struggle all of us face as we figure out what we aspire to be and how we can harness our talents to impact the world. "How do you mourn the

loss of a fiery talent that was barely a tendril before it was snuffed out? Answer: Read this book. A clear-eyed observer of human nature, Keegan could take a clever idea...and make it something beautiful” (People).

In 1872 in the treaty port of Shanghai, British merchant Ernest Major founded one of the longest-lived and most successful of modern Chinese-language newspapers, the Shenbao. His publication quickly became a leading newspaper in China and won praise as a "department store of news," a "forum for intellectual discussion and moral challenge," and an "independent mouthpiece of the public voice." Located in the International Settlement of Shanghai, it was free of government regulation.

Paradoxically, in a country where the government monopolized the public sphere, it became one of the world's most independent newspapers. As a private venture, the Shenbao was free of the ideologies that constrained missionary papers published in China during the nineteenth century. But it also lacked the subsidies that allowed these papers to survive without a large readership. As a purely commercial venture, the foreign-managed Shenbao depended on the acceptance of educated Chinese, who would write for it, read it, and buy it. This book sets out to analyze how the managers of the Shenbao made their alien product acceptable to Chinese readers and how foreign-style newspapers became alternative modes of

communication acknowledged as a powerful part of the Chinese public sphere within a few years. In short, it describes how the foreign Shenbao became a "newspaper for China."

From the Preface: The following study aims to give a fairly comprehensive survey of the literary contributions in colonial newspapers from 1704 to 1750. Aside from the well-known essays of Benjamin Franklin in *The New England Courant* and in *The Pennsylvania Gazette*, the literary material in the colonial weeklies has been hitherto neglected. Especially is this true of the Southern papers.

Quotations of some length from the essays and verse published in colonial journals have therefore been considered advisable in the present work. In most instances the originals of these extracts are accessible only in the collections of Historical Societies, or in the files of some especially favored library. The student who wishes to examine *The South Carolina Gazette*, for example, must go to the Charleston Library Society for the only file known to be extant. All quotations in the present volume follow literally the punctuation, spelling, and capitalization of the originals, no matter how inconsistent these may seem to the modern reader. The only exceptions to this rule are a few corrections of obvious printers' errors, the retention of which would add needless confusion.

Print and Politics offers a cultural history of a late Qing newspaper, Shibao, the most influential reform daily of its time.

Exploring the simultaneous emergence of a new print culture and a new culture of politics in early-twentieth-century China, the book treats Shibao as both institution and text and demonstrates how the journalists who wrote for the paper attempted to stake out a “middle realm” of discourse and practice. Chronicling the role these journalists played in educational and constitutional organizations, as well as their involvement in major issues of the day, it analyzes their essays as political documents and as cultural artifacts. Particular attention is paid to the language the journalists used,

the cultural constructs they employed to structure their arguments, and the multiple sources of authority they appealed to in advancing their claims for reform.
