Thanks...Crash & Buella.... Testimony TESTIMONYHi! I just thought I should send you a note and tell you thanks for writing your little "book" about colloidal silver and such. I bought it from Amazon a few weeks ago and finally got around to making my own last night. Your instructions were dead on and made me feel like I knew what the heck I was doing. I am so glad I stumbled on your book. You have no idea how much money you and your little book are going to save me!Thanks for responding Crash. Your explanation makes sense and is less complicated than the answers I tried to track down on line. You solved my problem. By the way, the CS mixed wonderfully in Nivea Cream. Now I am complete! :) Just to give you a little history, I have Lupus (or did) and battled it for years. I tried all the doctor recommended, mainstream fixes, cures, drugs, ect., until one of the drugs I was prescribed by a doctor almost killed me. After that I never went back to the Lupus docs or took another one of their prescribed fixes. My mother died of Lupus and I sure as heck didn't want to go out the way she did so I started researching natural remedies/cures and opened up a whole new world for me. That is when I found out about CS and a plethora of natural healing stuff that God gave us. I planted a ginormous garden, complete with every herb imaginable. I started growing and canning most all of our own food organically and stopped buying as much as possible from grocery stores and large manufacturers. That was about 6 years ago and it changed my life forever. With daily doses of CS the Lupus rarely ever shows up and when it does, I am convinced it is from something I have eaten commercially or ingested somehow. I could be completely wrong, but all I know is that it works for me and I'm not sick anymore. Yeah!!!! Thanks again Crash. I can't wait to start banking some of the money I was spending on CS now that I can make it at home.That is an absolutely AMAZING story! I am so happy for

you that CS is helping you be richer and healthier both!:) You are absolutely correct about natural foods as well. We have been so focused on making a faster growing bug free plant that we have forgotten that in doing so it could just be a faster, slow death!:) Thank You again for your testimony! It is absolutely AMAZING heart and soul food. I will pass your story along. You could very well have just saved many people from the daily battle with Lupus and many other ailments. Happy Health! Crash...

premature aging • Presents a 14-day total-body cleansing guide • Includes chi self-massage and healing sound practices as well as natural recipes for herbal tonics and cleansing flushes Long known by Taoist masters, the body has an innate ability to heal itself, an ability that is hampered by toxins in the food we ingest and energy blockages that arise from illnesses and obstacles in our lives. Wei show how to reactivate your body's self-healing abilities by gradually and safely expelling accumulated toxins through fasting, mono diets, and cleansing the nine openings of the body. Using the practices of chi self-massage and healing sounds along with natural recipes for herbal tonics and cleansing flushes for each of the openings and their related organs, the authors explain how to balance and purify the body's internal environment through acid and alkaline foods, urine therapy, colonic cleanses, dry skin brushing, ear candling, and energized water. Before the invention of the refrigerator, it was common to put a drop of a silver coin into a container of milk as a preservative because silver was known to retard the growth of fungi, bacteria and other undetectable organisms. During the last few centuries, silver was used as a disinfectant to stop the spread of diseases. It was not until the 1940s, when modern antibiotics arrived. Today, however, it is not needed to drop silver into their water to experience the silver benefits! All you need to do is carefully take a few drops from a bottle that you buy at the store, which is a solution of water containing nanometre sized particles of suspended silver. The total silver content is approximately 1 mg of silver per liter (mg/L) of water which is numerically the same as 1 part per million (ppm). The total silver content is divided into two forms of silver: ionic silver and colloidal silver. Many health food stores and pharmacies sell various brands of colloidal silver, and, therefore, you need a vast amount of information about colloidal silver benefits in the internet. Unfortunately, the information out there is often misleading, as many of our health influencers are not experts.

Millions of Americans use e-cigarettes. Despite their popularity, little is known about their health effects. Some suggest that e-cigarettes likely confer lower risk compared to combustible tobacco cigarettes, because they do not expose users to toxicants produced through combustion. Proponents of e-cigarette use also tout the potential benefits of e-cigarettes as devices that could help combustible tobacco cigarette smokers to quit and thereby

reduce tobacco-related health risks. Others are concerned about the exposure to potentially toxic substances contained in e-cigarette emissions, especially in individuals who have never used tobacco products such as youth and young adults. Given their relatively recent introduction, there has been little time for a scientific body of evidence to develop on the health effects of e-cigarettes. Public Health Consequences of E-Cigarettes reviews and critically assesses the state of the emerging evidence about e-cigarettes and health. This report makes recommendations for the improvement of this research and highlights gaps that are a priority for future research.
