Sailing Made Easy is the first step in a voyage that will last you the rest of your life. It is a gift from a group of dedicated sailing professionals who have committed their lives to sharing their art, their skill, and their passion for this wonderful activity. This book, which Sailing Magazine called "best in class" upon its release in 2010, is the most comprehensive education and boating safety learn-to-sail guide to date. It is also the official textbook for the ASA Basic Keelboat Standard (ASA 101). Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The text's most distinguishing feature is its user friendly "spreads" in which instructional topics are self-contained on opposing pages throughout the book. There are also chapter end quizzes and a glossary to help those new to sailing to navigate their way through the extensive nautical terminology.

The Science Focus Second Edition is the complete science package for the teaching of the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition and includes a number of new and exciting features, improvements and components. The student book includes: Chapter opening pages which include the key prescribed focus area for the chapter and a clear distinction between essential and additional content; Updated and revised content, photos, illustrations and 'science clip' boxes in a format that is easy to read and follow; Unit questions under headings that are structured in a hierarchical progression using Bloom's Revised Taxonomy; Additional questions which include research, creative writing, investigations and internet activities; Practical activities at the end of each unit allowing teachers to choose when to do practical work.; Student CD which contains an electronic version of the student book.

Meow Libs Heinemann

This book covers the foundations of modern methods of quality control and improvement that are used in the manufacturing and service industries. Quality is key to surviving tough

competition. Consequently, business needs technically competent people who are well-versed in statistical quality control and improvement. This book should serve the needs of students in business and management and students in engineering, technology, and other related disciplines. Professionals will find this book to be a valuable reference in the field.

The Contested Campus McGraw Hill Professional

Seventeen articles, all written by specialists in industry (most, like the editor, work for BTextact Technologies), offer a broad treatment of Voice over IP, or VoIP. Among the topics are voice quality, access, telephony solutions at the customer level, international standards, SS7 over IP, gateways and the Megaco architecture, bearer-independent call control, numbering and naming, multimedia with H.323, and clearinghouses and open settlement protocol. Paul M. Bessel gets to the heart of understanding Freemasonry with this light, easy to read and understand question and answer book. Designed to take the reader and Masonic student through the three craft degrees in a step by step, section by section manner. This work can help new Masons, and those interested in Freemasonry, learn the basic facts about our Craft. Cover design by Michael R. Poll

InfoWorld "O'Reilly Media, Inc."

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time

he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But **KASHER IN THE RYE** is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.
