Targeting Maths Heinemann

The Australian Signpost Mathematics New South Wales series addresses the New South Wales Syllabus for the Australian Curriculum. This new series continues the Signpost tradition of expanding students' ability in a broad range of mathematical skills

while emphasising problem-solving and working mathematically.

Stargirl Cambridge University Press

New Century Maths raises the benchmark for mathematics in New South Wales. Each text contains work from a number of stages to accommodate the mixed-ability classroom and to cater for students' individual differences. Texts structured in this way encourage flexible teaching and learning plans and truly reflect the intention of an outcomes-based syllabus. To fully cater for a wide range of abilities and needs, each text at years 9 and 10 is published in two versions, stages 5.1/5.2 and stages 5.2/5.3, both providing different pathways of learning. This structure enables students to follow the pathway into the stage 6 mathematics course that best suits their abilities and needs.

Mentals McGraw-Hill Education

NEW SIGNPOST MATHEMATICS ENHANCED is an updated edition of the market-leading New Signpost Mathematics series. It is enhanced in design, technology and teaching resources.

Australian Signpost Mathematics 8 New South Wales: Student book

The New Senior Mathematics Extension 2 for Year 12 Student Worked Solutions contains fully worked solutions for every second question in the student book.

Understanding Year 3 Maths

Good Strategy/Bad Strategy clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In Good Strategy/Bad Strategy, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007 – 08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, Good Strategy/Bad Strategy stems from Rumelt’s decades of digging beyond the superficial to address hard questions with honesty and integrity.

Australian Signpost Maths

The Australian Signpost Mathematics New South Wales series addresses the NSW Syllabus for the Australian Curriculum. This new series continues the Signpost tradition of expanding students' ability in a broad range of mathematical skills while emphasising problem-solving and working mathematically.

Australian Signpost Maths

The Homework Programs consist of up to 120 tear-out worksheets, divided into chapters that match and supplement the Student Book chapters. They provide further practise and application of key skills.

Assessment of Authentic Performance in School Mathematics

An innovative student-centred approach is taken throughout the text, with numerous worked examples and self-test questions to stimulate self-directed learning. Frequent case studies highlight the importance of maths to pharmacy, and help students to make that crucial connection between theory and practice, while key take-home messages for each section are summarised in concise learning-point boxes.

Maths Skills for Pharmacy

International Mathematics for the Middle Years has been developed with the international student in mind. This series is particularly beneficial to students studying the International Baccalaureate MYP. All examples and exercises take an international viewpoint, giving students an opportunity to learn Mathematics with a global perspective. The content is appropriate for international curricula and will meet the needs of all middle school students studying Mathematics.

Australian Signpost Mathematics 8 New South Wales: Teacher companion

The Teacher's Book assists you with implementing Australian Signpost Maths, and includes the pedagogical background and suggested teaching program. Reproduced pages from the student book with answers are shown in the Teacher's Book to save you time correcting, with Australian

Mathematics Curriculum references on each page of the Teacher's Book to help you follow how the content strands are covered. Teaching suggestions, extension work, maths language, resources and evaluations are available for each lesson, catering for differentiation and meeting individual learning needs of students. ID cards are also provided to help develop students' mathematical language and concepts, and blackline masters are given to provide extra exercises for particular areas of the syllabus. Assessment options to help discover each student's strengths and weaknesses include progress tests and diagnostic tests. Both of these assessment options supply their answers and directly reference to each concept in the student book.
