A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so

compelling that it begs to be read in a single setting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a

mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are

"Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations. Silent witness Sourcebooks, Inc. Two months after the suspicious and much-publicized death of his father on the island of Martha's Vineyard, it is taking

all of Adam Blaine's character to suture the deep wounds - both within his family and himself - torn open by the tragedy. Moreover, as the court inquest into Benjamin Blaine's death continues, it is taking all of Adam's cunning to protect those closest to him from figures who still suspect that Adam's father was murdered by one of his kin. But the sternest test of all is Adam's proximity to Carla Pacelli - his late father's mistress; and a woman who, despite being pivotal to his family's plight, Adam finds himself increasingly drawn to. The closer he gets to this beautiful, mysterious woman, the further Adam feels from his troubles. Yet the closer he also comes to revealing the

secrets he's strived to conceal, and condemning the people he's fought so hard to protect.

Madmen may see monsters – but some monsters hide in plain sight From a basement office in London’s notorious Bethlehem Hospital, former policeman and Pinkerton agent, Sebastian Becker investigates those whose dubious mental health may render them unfit to manage their own affairs. When Becker is sent to interview wealthy landowner Sir Owain Lancaster, he claims that the same dark creatures who killed his family and colleagues in the Amazon have

followed him home and are responsible for the deaths of two local young girls. It is not the first time that children have come to harm in his rural countryside town, though few are willing to speak of incidents from the past. Becker must determine whether this mad nobleman is insane and possibly a murderer, or if something more sinister is at work. From dank asylums to the lush and treacherous Amazon, through the makeshift studios of the early film industry and a traveling fair of freaks and illusions, Sebastian Becker’s search for answers brings him face to face with madmen and monsters, both imagined and real.

At the book's center are two twentieth-century men who represent different kinds of power: Kenneth Toomey, eminent novelist, a man who has outlived his contemporaries to survive into, bitter, luxurious old age as a celebrity of dubious notoriety, and Don Carlo

Campanati, a man of God, eventually beloved Pope, who rises through the Vatican as a shrewd manipulator to become the architect of church revolution and a candidate for sainthood.
