Sima was what you got at Best Buy. Sima gear is incredibly weak, and the "defeats Macrovision" is all nonsense. The SCC are definitely not SignVideo/Studio1 gear, nor Elite Video BVP4, and is much weaker -- though not as pathetic as the AVT-8710 proc amp (for color, not IRE/luminance; the brightness contrast on the AVT is better than the SCC).

Solve Sima SCC problem - Solve device problem

The user defines structure and content of a report in a template which is then filled with the concrete values from the analyses. Aside document based reporting, the workbench also supports exporting the resulting data into many common formats such as Excel, comma-separated-values, or HDF5. Typical applications of SIMA include:

I've used the Sima SCC-2 for a couple of weeks now and like the device. I have some VHS tapes that I want to move over to DVD and needed to circumvent the Macrovision. On the whole, the unit functions as advertised. The adjustment of the contrast, color, etc, is good.

-For appliance sizes 6 x 2/3, 6 x
