The player lays out transportation infrastructure, parks, and residential, commercial, or industrial zones into which the Sims build their own buildings. All the zones are square and exactly the same size. (There have since been two sequels, SimCity 2000 and SimCity 3000, which are more sophisticated.) SimCity players quickly learn, or read in a strategy guide, that the optimal layout for the city is the "donut block", a square ring of eight zones with a park or other civic structure in ...
