Up Your Score: SAT, 2018-2019 Edition Princeton Review

This second edition of the popular math teaching resource book *Math Stories for Problem Solving Success* offers updated true-to-life situations designed to motivate teenagers to use math skills for solving everyday problems. The book features intriguing short stories followed by sets of problems related to the stories that are correlated to the standards of the National Council of Teachers of Mathematics. Each of the easy-to-read stories is followed by three increasingly difficult groups of problem sets. This makes it simple for teachers to select the appropriate problem set for students of different abilities and at different grade levels. To further enhance student involvement, the stories feature recurring characters and can be used either sequentially or out of order. The problems in the book cover many basic math topics, including decimals, fractions, and percents; measurement; geometry; data, statistics, and probability; algebra; and problem solving. In addition to having all the answers, an Answer Key at the end of the book offers explanations and background information about the problems that can be helpful to both teachers and students. *Math Stories for Problem Solving Success* will help you show students that math is something they are already using every day.

Thoroughly revised for the revamped SAT, *Up Your Score: SAT* is the only test-prep guide written for students by students—all of whom achieved perfect or near-perfect scores and went on to the colleges of their choice. A complement and reality check to the mainstream SAT study guides, it's the book that kids recommend to one another, because it's as entertaining as it is effective, showing students how to:

- Think like the SAT
- Ramp up their "mental math" powers
- Remember the 12 most important grammar rules
- Hone speed and timing
- Understand key vocabulary words in context
- Be a better guesser (and why it's always better to guess)
- Vanquish anxiety and improve concentration
- Best fill in the answer circles, saving nearly six minutes
