The old Turtleback, the Featherweight and the toy sewing machines made between 1941 and 47 do seem to bring a nice price tag. There are a few hand crank machines on sale at eBay for around \$200 each and

a centennial sewing machine is selling for \$300. A Singer 301 has a price tag of \$489 while a Model 66 is selling for less than \$200.

I have a 1906 SINGER Model 27 machine (Serial Number: S2145960. On Singer's official website, the original, NLA dating chart noted alongside the line listing Singer Machines with the 'S' serial number prefix for serial numbers: "NOTE: 100 of these 'S' machines were made in Podolsk, Russia."

Official UK Supplier - Singer Sewing Machines & Spares
I have a Singer Featherweight that I bought used in about 1964. I got it with money from a summer job while I was in college. I'm not sure how old it is, I did look up the serial number on the Singer site, but it was long enough ago that I don't remember when it was manufactured. I still use it for quilting, it is real handy and sews beautifully.

Featherweight - One of the most sought after Singer machines is the 221 and 222 Featherweight, which are still popular with quilters, craftspeople, and seamstresses. While only a vintage machine, built in the 1930s - 1960s, they still work well and are a testament to the quality of the Singer product.
