In addition factual recall

questions have also been included that probe for basic recall of facts. Detailed and comprehensive explanations, rather than just brief answers, to questions have been provided so that the candidates do not have to consult textbooks for clarification as is the case with most other MCQs books currently available in the market. A list of relevant references is provided at the end of each answer to enable candidates to read the most up to date journal articles on the subject. The questions in this book can be used in a number of ways: (1) as a diagnostic tool (pretest), (2) as a guide and focus for further study, and (3) for self-assessment. The least effective use of these questions is to study them by reading them one at a time, and then looking at the correct response. These over 300 practice questions are intended to be an integral part of a well-planned review as well as an isolated resource. If used appropriately, these questions can provide self-assessment information beyond a numeric score. Furthermore, the questions have been planned in such a way that this book can be used as companion to any textbook of Cardiothoracic Surgery.

MCQs and Short Answer Questions for Surgery HarperCollins

A collection of feminist essays steeped in “Solnit’s unapologetically observant and truth-speaking voice on toxic, violent masculinity” (The Los Angeles Review). In a timely and incisive follow-up to her national bestseller *Men Explain Things to Me*, Rebecca Solnit offers sharp commentary on women who refuse to be silenced, misogynistic violence, the fragile masculinity of the literary canon, the gender binary, the recent history of rape jokes, and much more. In characteristic

style, “Solnit draw[s] anecdotes of female indignity or male aggression from history, social media, literature, popular culture, and the news . . . The main essay in the book is about the various ways that women are silenced, and Solnit focuses upon the power of storytelling—the way that who gets to speak, and about what, shapes how a society understands itself and what it expects from its members. The *Mother of All Questions* poses the thesis that telling women’s stories to the world will change the way that the world treats women, and it sets out to tell as many of those stories as possible” (The New Yorker). “There’s a new feminist revolution—open to people of all genders—brewing right now and Rebecca Solnit is one of its most powerful, not to mention beguiling, voices.” —Barbara Ehrenreich, *New York Times* – bestselling author of *Natural Causes* “Short, incisive essays that pack a powerful punch.” —Publishers Weekly “A keen and timely commentary on gender and feminism. Solnit’s voice is calm, clear, and unapologetic; each essay balances a warm wit with confident, thoughtful analysis, resulting in a collection that is as enjoyable and accessible as it is incisive.” —Booklist
