Important features of this edition include recent developments in the European Union, Bosnia, Israel, Russia and South Africa, new national anthems, and updates on radio and television broadcasting services. Last year also saw the introduction of locator maps for each country. The Statesman's Year-Book was chosen by The Good Book Guide for Business as one of the 600 essential books for the international manager

Sri Lanka National Bibliography Routledge

Sri Lanka’s early achievements in education and literacy became well known among the international development community in the middle of the last century and were often used to benchmark progress elsewhere. Development, Education and Learning in Sri Lanka presents an illuminating narrative of changing education fortunes and inequalities, based on half a century of research. This research journey was undertaken in collaboration with Sri Lankan researchers island-wide in myriad communities, schools, classrooms and education offices, through conversations with countless parents, teachers, students, community members, trade union officers, politicians and members of local, national and international development agencies, as well as through extensive documentary analysis. The book delineates the distinctive and changing features of the Sri Lankan education system through comparisons with systems elsewhere, through an understanding of national political, economic and social conditions, crises and upheavals, through changes in education policy and through shifting patterns of opportunity among diverse social groups. These analyses are framed by themes in the international development discourse ranging from modernisation to basic needs to globalisation and sustainable development, some of which themes have been influenced by the Sri Lankan story. The book’s overriding messages are the need to understand education and development in a country’s own terms, and to place learning at the heart of education policy, situating it within broader conceptions of the purpose, values and means of development. Praise for Development, Education and Learning in Sri Lanka 'Through rigorous and comprehensive research and a blend of local and global perspectives, this book offers invaluable insights for academics and policymakers alike.' Tara de Mel, Director, Bandaranaike Academy for Leadership and Public Policy and former Secretary, Sri Lanka Ministry of Education 'Reflecting on a career-long engagement with education and development, Angela Little brilliantly co-locates the personal, political and the theoretical. A privilege to read.' Simon McGrath, University of Glasgow 'This passionate engagement with education reform and development offers very instructive lessons for academics and policymakers in Sri Lanka, and beyond.' Siri T. Hettige, University of Colombo 'Fifty years of personal experience in Sri Lanka from many vantage points. A focus on education and society, rather than education alone. And a concern to understand rather than prescribe. This book has no competitors.' Mick Moore, Institute of Development Studies, Sussex

Culture, Politics, and Development in Postcolonial Sri Lanka Springer Science & Business Media

Scientific Essay from the year 2011 in the subject Pedagogy - The Teacher, Educational Leadership, language: English, abstract: Krieg (2005) in his review of impact of teacher gender on student gender states that while a large body of research focuses on the gender of students, less research explores the impacts of a teacher's gender on students (Hopf & Hatzichristou 1999). Evidence suggests that male teachers tend to be more authoritative whereas female teachers tend to be more supportive and expressive (Meece, 1987). A survey of 20 teachers indicates that male teachers are likely to select a more aggressive disciplinary approach toward boys while teachers of either gender tended to ignore boys' disruptive behavior than that of girls when the behavior was not aggressive (Rodriguez, 2002). Krieg (2005) further reveals that researchers have found that teachers interact differently with students of similar gender than they do with students of opposite gender Einarsson, C., & Granström, K. (2002) This includes evidence suggesting disciplinary procedures and proclivity to discipline vary by both student and teacher gender. Likewise, a teacher's perception of student characteristics and abilities appear to systematically vary by gender. Other studies find male students benefit at the expense of female students in the amount and quality of interaction received from teachers of both genders. What has yet to be determined is how these differences in discipline, perceptions of student ability, and interactions between student and teacher influence student outcomes as measured by standardized exams.

Resources in Education N A F S A: Association of International Educators

This volume collects twenty-nine published and unpublished papers by the linguist James Gair, considered the foremost western scholar of the Sri Lankan languages Sinhala and Jaffna Tamil. Ranging over thirty years, his work also considers issues in a variety of Indian languages, including Hindi, Marathi, Tamil, Malayalam, and Bengali. The collection reflects the wide range of Gair's interests, from morpho-syntactic questions to questions regarding historical and areal linguistics, especially language contact and diglossia, and extending to language acquisition. By collecting these papers and making them newly accessible, this volume will provide an important resource not only for scholars of these languages but for linguists interested in the theoretical issues Gair explores.

Seeding Buddhism with Multiculturalism Lexington Books

Spanning scholarly contributions from India, Nepal, Bangladesh, Pakistan, and Sri Lanka, this edited volume seeks to capture and elucidate the distinct challenges, approaches and possible solutions associated with interpreting, adapting and applying language-in-education policies in a range of linguistically complex teaching and learning environments across South Asia. Centring on-the-ground perspectives of scholars, practitioners, pupils, parents and the larger community, the volume offers new insights into one of the most complex, populous, and diverse multilingual educational contexts in the world. Language-in-education policies and practices within this setting represent particularly high stakes issues, playing a pivotal role in determining access to literacy, thereby forming a critical pivot in the reproduction of educational inequality. The broad aim of the collection is thus to highlight the pedagogical, practical, ideological and identity-related implications arising from current language-in-education policies in this region, with the aim of illustrating how systemic inequality is intertwined with such policies and their associated interpretations. Aimed at both academics and practitioners - whether researchers and students in the fields of education, linguistics, sociology, anthropology or South Asian studies, on the one hand, or language policy advisors, curriculum developers, teacher educators, teachers, and members of funding bodies, aid providers or NGOs, on the other - it is anticipated that the accounts in this volume will offer their readership opportunities to consider their wider implications and applications across other rich multilingual settings - be these local, regional, national or global.

Resources in Education GRIN Verlag

This book provides a synopsis of recently published empirical research into the acquisition of reading and writing in Arabic. Its particular focus is on the interplay between the linguistic and orthographic structure of Arabic and the development of reading and writing/spelling. In addition, the book addresses the socio-cultural, political and educational milieu in which Arabic literacy is embedded. It enables readers to appreciate both the implications of empirical research to literacy enhancement and the challenges and limitations to the applicability of such insights in the Arabic language and literacy context. The book will advance the understanding of the full context of literacy acquisition in Arabic with the very many factors (religious, historical, linguistic etc.) that interact and will hence contribute to weakening the anglocentricity that dominates discussions of this topic.

Parliamentary Debates Routledge

In this book, Nalani Hennayake unravels how the development experience of a postcolonial society is deeply embedded in a complex historical relationship between culture and politics by focusing on the country of Sri Lanka.

Multilingual Education in South Asia Oxford University Press, USA

The field of education has experienced extraordinary technological, societal, and institutional change in recent years, making it one of the most fascinating yet complex fields of study in social science. Unequalled in its combination of authoritative scholarship and comprehensive coverage, International Encyclopedia of Education, Third Edition succeeds two highly successful previous editions (1985, 1994) in aiming to encapsulate research in this vibrant field for the twenty-first century reader. Under development for five years, this work encompasses over 1,000 articles across 24 individual areas of coverage, and is expected to become the dominant resource in the field. Education is a multidisciplinary and international field drawing on a wide range of social sciences and humanities disciplines, and this new edition comprehensively matches this diversity. The diverse background and multidisciplinary subject coverage of the Editorial Board ensure a balanced and objective academic framework, with 1,500 contributors representing over 100 countries, capturing a complete portrait of this evolving field. A totally new work, revamped with a wholly new editorial board, structure and brand-new list of meta-sections and articles Developed by an international panel of editors and authors drawn from senior academia Web-enhanced with supplementary multimedia audio and video files, hotlinked to relevant references and sources for further study Incorporates ca. 1,350 articles, with timely coverage of such topics as technology and learning, demography and social change, globalization, and adult learning, to name a few Offers two content delivery options - print and online - the latter of which provides anytime, anywhere access for multiple users and superior search functionality via ScienceDirect, as well as multimedia content, including audio and video files

Far Eastern Economic Review McGill-Queen's Press - MQUP

Report and recommendations on the educational system in Sri Lanka, with particular reference to primary education and secondary education - covers admission requirements, teaching methods, teaching of the official language and of religion, recruitment of teachers, the minimum age of school leavers, training programmes (incl. Vocational training and commercial education programmes), etc. Statistical tables.

Information technology (IT) can be collectively described as that used by man to gather, store and retrieve, manipulate and communicate data and information. Today , in the 'Information Age', this takes place over and across vast geographical, demographical, socio-political and economic scopes, and the ceasing of it will choke society, as know it today, to a pre-historic standstill. It is, understandably implemented through various aspects of computing and Electronic Technology. With the growing complexity of the information processing needs throughout fields as diverse as business, science, technology, exploration and entertainment, several issues involving data security, time complexity. Bandwidth and thought put, parallel and alternative computing technology and the technology used in an ever-increasing band of newer types of devices, are posing the most crucial questions to the future of society in general and IT in particular. The book is a collection of articles written by professors, industry persons and researchers if international reput and comprises the latest breakthrough sin the fields of Information Theory and Coding, Information Security, Next Generation Internet technology, Data Mining and Knowledge Management, Mobile Computing and Communication. Bioinformatics, Soft Computing, Multimedia Systems and Communication, Quantum Computing, Image Processing and other areas which together comprise IT. This book is a must read for those seeking to expand their knowledge about various aspects of Information Technology.

IDS Discussion Paper Springer Science & Business Media

Immigrants often face considerable challenges when it comes to preserving their cultural and religious teachings. D. Mitra Barua argues that the Sri Lankan Buddhist community in Toronto has maintained its coherence and integrity not despite but because of the need for cultural adaptations. Drawing on survey data, over fifty in-depth interviews with temple monks, educators, parents, and children, and fieldwork conducted in Toronto and Colombo, Sri Lanka, Seeding Buddhism with Multiculturalism examines how a religious tradition is transmitted from one generation to the next in a new cultural setting, and what happens during that process of transmission. Barua demonstrates that Buddhists have passed on Buddhist beliefs, attitudes, and practices to their Canadian-born youth, who in turn have constructed their own distinct Buddhist identity, influenced by the individualistic, egalitarian, and secular cultural ambience in Toronto. Through creative fieldwork and translocal analysis – taking into account migrants' geographical, cultural, and familial ties to multiple locales – this book further explains that pre-migration experiences often shape and determine the success or failure of intergenerational transmission. An ethnographic religious study with an uncommon depth of perspective, Seeding Buddhism with Multiculturalism shows that first- and second-generation Sri Lankan Buddhists in Toronto are successfully practising Theravāda Buddhism within a Canadian context.

Interim Report, 1961 Springer

The Indian Ocean Tsunami, which devastated 70 percent of Sri Lanka's coastline and killed an estimated 35,000 people, was remarkable both for the magnitude of the disaster and for the unprecedented scale of the relief and recovery operations mounted by national and international agencies. The reconstruction process was soon hampered by political patronage, by the competing efforts of hundreds of foreign humanitarian organizations, and by the ongoing civil war. The book is framed within this larger political and social context, offering descriptions and comparisons between two regions (southwest vs. eastern coast) and four ethnic communities (Sinhalese, Tamils, Muslims, and Burghers) to illustrate how disaster relief unfolded in a culturally pluralistic political landscape. Approaching the issue from four disciplinary perspectives - anthropology, demography, political science, and disaster studies - chapters by experts in the field analyse regional and ethnic patterns of post-tsunami reconstruction according to different sectors of Sri Lankan society. Demonstrating the key importance of comprehending the local cultural contexts of disaster recovery processes, the book is a timely and useful contribution to the existing literature.

Oswaal CBSE Class 10 Social Science Question Bank (2024 Exam)

This two-volume set, consisting of LNCS 7181 and LNCS 7182, constitutes the thoroughly refereed proceedings of the 13th International Conference on Computer Linguistics and Intelligent Processing, held in New Delhi, India, in March 2012. The total of 92 full papers were carefully reviewed and selected for inclusion in the proceedings. The contents have been ordered according to the following topical sections: NLP system architecture; lexical resources; morphology and syntax; word sense disambiguation and named entity recognition; semantics and discourse; sentiment analysis, opinion mining, and emotions; natural language generation; machine translation and multilingualism; text categorization and clustering; information extraction and text mining; information retrieval and question answering; document summarization; and applications.

Sri Lanka, the Ethnic Conflict

Description of the product: ? Strictly as per the latest CBSE Board Syllabus released on 31st March, 2023 (CBSE Cir No. Acad-39/2023) ? 100% Updated with Latest Syllabus & Fully Solved Board Paper ? Crisp Revision with timed reading for every chapter ? Extensive Practice with 3000+ Questions & Board Marking Scheme Answers ? Concept Clarity with 1000+concepts, Smart Mind Maps & Mnemonics ? Final Boost with 50+ concept videos ? NEP Compliance with Competency Based Questions & Art Integration
