Context in Literary and Cultural Studies is an interdisciplinary volume that deals with the challenges of studying works of art and literature in their historical context today. The relationship between artworks and context has long been a central concern for aesthetic and cultural disciplines, and the question of context has been asked anew in all eras. Developments in contemporary culture and technology, as well as new theoretical and methodological orientations in the humanities, once again prompt us to rethink context in literary and cultural studies. This volume takes up that challenge. Introducing readers to new developments in literary and cultural theory, Context in Literary and Cultural Studies connects all disciplines related to these areas to provide an interdisciplinary overview of the challenges different scholarly fields today meet in their studies of artworks in context. Spanning a number of countries, and covering subjects from nineteenth-century novels to rave culture, the chapters together constitute an informed, diverse and wide-ranging discussion. The volume is written for scholarly readers at all levels in the fields of Literary Studies, Comparative Literature, Cultural Studies, Art History, Film, Theatre Studies and Digital Humanities.

In the wake of Mexico's revolution, artists played a fundamental role in constructing a national identity centered on working people and were hailed for their contributions to modern art. Picturing the Proletariat examines three aspects of this artistic legacy: the parallel paths of organized labor and

artists' collectives, the relations among these groups and the state, and visual narratives of the worker. Showcasing forgotten works and neglected media, John Lear explores how artists and labor unions participated in a cycle of revolutionary transformation from 1908 through the presidency of Lázaro Cárdenas (1934–1940). Lear shows how middle-class artists, radicalized by the revolution and the Communist Party, fortified the legacy of the prerevolutionary print artisan José Guadalupe Posada by incorporating modernist, avant-garde, and nationalist elements in ways that supported and challenged unions and the state. By 1940, the state undermined the autonomy of radical artists and unions, while preserving the image of both as partners of the “institutionalized revolution.” This interdisciplinary book explores the gendered representations of workers; the interplay of prints, photographs, and murals in journals, in posters, and on walls; the role of labor leaders; and the discursive impact of the Spanish Civil War. It considers “los tres grandes”—Rivera, Siquieros, and Orozco—while featuring lesser-known artists and their collectives, including Saturnino Herrán, Leopoldo Méndez, Santos Balmori, and the League of Revolutionary Writers and Artists (LEAR). The result is a new perspective on the art and politics of the revolution.

This volume explores the linguistic diversity and language variation in Berlin. The analytical focus is on the emergence of linguistic, cultural, political and spatial discourses and communities, or discursive and institutional responses to these. The volume provides new insights into language in its local but transnationally conditioned socio-economic embeddedness.

"Midwinter Turns to Spring" is the very first novel that comes with its own music soundtrack. (The companion CD -- containing 10 ballads with Flamenco flavor, and 1 instrumental song -- is attached to the inside back cover of the book.) The songs are woven intricately into -- and form a significant part of -- the novel's plot. They serve to intensify the emotional involvement of the reader much like a film score intensifies the emotional appeal of a movie. The author, Maria Veloso, also wrote the original song lyrics, and composed the music for 5 of the ballads. The element of music was purposely included to highlight one of the central themes of the novel -- that of the power of music to communicate love better than mere words can -- as well as music's endless capacity for healing, breaking through pain, bringing us together with those we love, and reconnecting us with our higher selves and our creator.

From the Man Booker Prize-nominated author of *Sleeping on Jupiter* and "one of India ' s greatest living authors " (O, The Oprah Magazine), a poignant and sweeping novel set in India during World War II and the present day about a son ' s quest to uncover the truth about his mother. In my childhood, I was known as the boy whose mother had run off with an Englishman. The man was in fact German, but in small town India in those days, all white foreigners were largely thought of as British. So begins the "gracefully wrought " (Kirkus Reviews) story of Myshkin and his mother, Gayatri, who rebels against tradition to follow her artist ' s instinct for freedom. Freedom of a different kind is in the air across India. The fight against British rule is reaching a critical turn. The Nazis have come to power in Germany. At this point of crisis, two strangers arrive in Gayatri ' s town, opening up to her the vision of other possible lives. What took Myshkin ' s mother from India and Dutch-held Bali in the 1930s, ripping a knife through his comfortingly familiar universe? Excavating the roots of the world in which he was abandoned, Myshkin comes to understand the connections between the anguish at home and a war torn universe overtaken by patriotism. Evocative and moving, " this mesmerizing exploration of the darker consequences of freedom, love, and loyalty is an astonishing display of Roy ' s literary prowess " (Publishers Weekly).

Over the past two decades the study of social

movements, revolution, democratization and other forms of nonroutine, or "contentious politics," has flourished as never before. And yet theory and research on the topic remain highly fragmented. The first of these divisions reflects the long-standing view that various forms of contention are indeed distinct and should be studied independent of others. A second traditional approach to the study of political contention denies the possibility of general theory, in deference to a thorough grounding in the temporal and spatial particulars of any given episode of contention. Finally, overlaid on these two divisions are stylized theoretical traditions--structuralist, culturalist, and rationalist--that have developed largely in isolation from one another.

This book contributes to better recognition and comprehension of the interconnection between archaeology and political pressure, especially imposed by the totalitarian communist regimes. It explains why, under such political conditions, some archaeological reasoning and practices were resilient, while new ideas leisurely penetrated the local scenes. It attempts to critically evaluate the political context and its impact on archaeology during the communist era world wide and contributes to better perception of the relationship between science and politics in general. This book analyzes the pressures inflicted on archaeologists by the overwhelmingly potent political environment, which stimulates archaeological thought and controls the conditions for professional engagement. Included are discussions about the perception of archaeology and its findings by the public.

The Passion of Michel Foucault Romanian Literature  
The Prophet Muhammad s treaties with the Christians of his time, which John Andrew Morrow has rediscovered in obscure collections and often newly translated, uniformly state that Muslims are

not to attack peaceful Christian communities, but defend them until the End of the World. Authored by the Prophet himself, they represent a third foundational pillar for Islam outside of Qur'an and hadith. The Covenants Initiative within the book represents a movement by Muslims, both prominent and unknown, in support of Christians under attack. These treaties desperately need to be better known among Christians, Muslims, and the general public. For scholars, this book provides much difficult-to-obtain material: facsimiles of primary sources in Arabic and Persian; corrected versions in modern Arabic typescript; and alternate translations. They now have all they need to study the covenants in depth. "This narrative has the power to unite Muslim and Christian communities. A work of scholarship, its release is timely, and its content critical in fostering mutual respect and religious freedom."--IMAM FEISAL ABDUL RAUF, Chairman, Cordoba Initiative "In his indispensable contribution to the study of the Abrahamic faiths, John Andrew Morrow tells the story of how the Prophet Muhammad used his desert experiences of hospitality and protection to bring Muslims and Christians together."--JOSEPH HOBBS, University of Missouri "These letters from the Prophet Muhammad to Christian communities can serve to inspire both Muslims and Christians about our ability to live together as God's people, as friends, as neighbors, and as custodians of the same small planet."--OMID SAFI, University of North Carolina "With painstaking effort and much dedication invested in this groundbreaking work, Professor Morrow will surely manage to attract the attention of Islamic studies students and specialists."--AMAR SELLAM, Mohamed I University "This book documents what is possibly the third foundational source of Islam: the Prophet's treaties and covenants among people of the Abrahamic faiths. Dr. Morrow brings forth exceptionally important findings that dictate peaceful coexistence among Jews, Christians, and Muslims."--BRIDGET BLOMFIELD, University of

In *Neoliberalism from Below*—first published in Argentina in 2014—Verónica Gago examines how Latin American neoliberalism is propelled not just from above by international finance, corporations, and government, but also by the activities of migrant workers, vendors, sweatshop workers, and other marginalized groups. Using the massive illegal market La Salada in Buenos Aires as a point of departure, Gago shows how alternative economic practices, such as the sale of counterfeit goods produced in illegal textile factories, resist neoliberalism while simultaneously succumbing to its models of exploitative labor and production. Gago demonstrates how La Salada's economic dynamics mirror those found throughout urban Latin America. In so doing, she provides a new theory of neoliberalism and a nuanced view of the tense mix of calculation and freedom, obedience and resistance, individualism and community, and legality and illegality that fuels the increasingly powerful popular economies of the global South's large cities.

It was not the first time CIRCLE addressed this issue. In 1988 CIRCLE'S Bureau was invited to participate in a seminar in Budapest on The State, the Market and Culture. I will never

forget the emotional impact of Sacha Rubinstein's demonization of state support and his apotheosis of the role of the market in the cultural field in Russia. So, in advance of actual events, we suddenly had a premonition of what was going to happen, of the turmoil which was about to radically change the socio-political scene of Central and Eastern Europe. Six years later, in 1994, we met again in Budapest for a Conference on The Distribution of Roles between Government and Arts Councils, Associations and Foundations.

This book is a comprehensive and authoritative source on nontuberculous mycobacterial (NTM) pathogens and diseases and their appropriate management, with a focus on lung disease. NTM diseases, especially lung diseases, are increasing in prevalence in the U.S. and internationally with concomitant growing interest in a broad section of the medical community. Often merely included in coverage of tuberculosis, many aspects of NTM organisms and diseases are actually very different than TB. These differences are not intuitive or trivial and frequently result in suboptimal management of NTM patients. This book addresses these gaps in the literature with chapters on microbiology, pathophysiology, epidemiology, the various diseases that can stem from NTM, and their particular management. There is also coverage on prevention and NTM as a public health problem. For pulmonologists and infectious disease physicians, this is the definitive resource on nontuberculous mycobacteria.

Soccer has turned into a multi-billion-dollar industry. Professionalism and commercialization dominate its global image. Yet the game retains a rebellious side, maybe more so than any other sport co-opted by money makers and corrupt politicians. From its roots in working-class England to political protests by players and fans, and a current radical soccer underground, the notion of football as the "people's game" has been kept alive by numerous individuals, teams, and communities. This book not only traces this history, but also reflects on common criticisms: soccer ferments nationalism, serves right-wing powers, and fosters competitiveness. Acknowledging these concerns, alternative perspectives on the game are explored, down to practical examples of egalitarian DIY soccer! Soccer vs. the State serves both as an orientation for the politically conscious football supporter and as an inspiration for those who try to
