For trainers free additional material of this book is available. This can be found under the "Training Material" tab. Log in with your trainer account to access the material. TOGAF is a framework - a detailed method and a set of supporting tools - for developing an enterprise architecture, developed by members of The Open Group Architecture Forum. TOGAF Version 9.1 is a maintenance update to TOGAF 9, addressing comments raised since the introduction of TOGAF 9 in 2009. It retains the major features and structure of TOGAF 9, thereby preserving existing investment in TOGAF, and adds further detail and clarification to what is already proven. It may be used freely by any organization wishing to develop an enterprise architecture for use within that organization (subject to the Conditions of Use). This Book is divided into seven parts: Part I - Introduction This part provides a high-level introduction to the key concepts of enterprise architecture and in particular the TOGAF approach. It contains the definitions of terms used throughout TOGAF and release notes detailing the changes between this version and the previous version of TOGAF. Part II - Architecture Development Method This is the core of TOGAF. It describes the TOGAF Architecture Development Method (ADM) a step-by-step approach

to developing an enterprise architecture. Part III - ADM Guidelines & Techniques This part contains a collection of guidelines and techniques available for use in applying TOGAF and the TOGAF ADM. Part IV - Architecture Content Framework This part describes the TOGAF content framework, including a structured metamodel for architectural artifacts, the use of re-usable architecture building blocks, and an overview of typical architecture deliverables. Part V - Enterprise Continuum & Tools This part discusses appropriate taxonomies and tools to categorize and store the outputs of architecture activity within an enterprise. Part VI - TOGAF Reference Models This part provides a selection of architectural reference models, which includes the TOGAF Foundation Architecture, and the Integrated Information Infrastructure Reference Model (III-RM). Part VII Architecture Capability Framework This section looks at roles, Governance, compliance skills and much more practical guidance

In Don't Mess It Up: How Founders and Their Successors Can Avoid the Clichés That Inhibit Growth, author and six-time second CEO Les Trachtman offers his expertise on the most effective ways to successfully hand off your company to a worthy successor. He also has advice for those who are inheriting a business and want to take it to the next level, as well as for boards who are dealing with these leadership transitions. In his direct, no-nonsense approach, Les shows readers how seemingly harmless business clichés such as “get it right” and “be careful” can have a detrimental effect on a company's future by conveying that such imperative ingredients such as risk and innovation are things to now be avoided. Readers will learn how to:

- Understand the metamorphosis required to transition from great founder to great CEO
- Know when, and if, it's time to replace yourself
- Pick the right successor
- Prepare yourself and your company for the fragile transition
- Create a successful CEO transition
- Separate yourself from the company

There is likely no one more experienced in founder transitions than Les Trachtman. He has been an innovative and respected successor at six different companies; let his hard-won advice guide you through your transition and toward success.
