An initiatic journey into the Mysteries of the Goddess and humanity ' s return to an age of peace and celestial light • Details the ceremonies and rituals of initiation into the Fellowship of Isis • Reveals the lost teachings of Jesus about the Divine Mother and Father and how the goddess Sophia is connected to Mary Magdalene as the Female Christ • Explores the many archetypes of the Goddess, including Isis, Brigit, and the Black Madonna, and how we can transform into Homo luminous, spiritual beings of light Called through her dreams by the Priestesses of Isis, Tricia McCannon set out on a spiritual journey into the Mysteries of the Goddess. After a fateful encounter with a high initiate of the ancient Fellowship of Isis, she began researching the history of Judaism and Christianity to find out how and when the Divine Feminine became lost. She discovered a forgotten age when the Creator was honored as female and humanity lived in peaceful societies completely free of war. She shows how we can return to an age of peace and celestial light if we work to bring the masculine and feminine energies of the world back into balance. Sharing her journey into the heart of the Divine Mother, McCannon details her initiation into the Fellowship of Isis, a process rich with ceremony, ritual, and myths of the Goddess from ancient Egyptian, Celtic, Greek, Hebrew, and Native American traditions. She reveals how the many archetypes of the Goddess, including Isis, Ishtar, Brigit, and the Black Madonna, can become our allies for self-transformation. She explores Mysteries at the heart of Christianity that have remained hidden for nearly 2,000 years and how the Gnostic goddess Sophia is tied to the Second Coming, Mary Magdalene, and the Female Christ. She reveals the lost teachings of Jesus about the Divine Mother and Father and about the Divine Daughter and Son. Through her story and her in-depth research, McCannon takes us on a journey to awaken the creative power of the Divine Feminine within each of us. Equipped with the teachings of the Goddess, we gain the mastery to overcome the deeply rooted masculine-feminine imbalance of the patriarchy and to embark into the

future as Homo luminous, beings of light.

The Second Edition of this volume is the result of an extensive review process by the Joint Committee of the original Standards for Evaluations of Educational Programs, Projects, and Materials published in 1981. The 30 standards are divided into four groups corresponding to the attributes of fair programme evaluation - utility; feasibility; propriety; and accuracy. In this new edition original standards have been combined and others added, with new case illustrations featuring applications of the standards to reform efforts in a diverse range of settings including schools, universities, law, medicine, nursing, business and social service agencies. Taken as a set, the Standards provide a working philosophy for evaluat
