We all love
SketchUp.
However, what
the program
has
traditionally
suffered from
is a lack of
reference
materials.
Sure, there are
the video
tutorials on the
website, and
you've always

had the on-line
hypertext
manual, but it's
fair to say that
when @Last,
publishers of
SketchUp,
finally
produced their
PDF users
manual the
result was
underwhelming
to say the
least.
