Teaching Your Kids to Ski ABC-CLIO

In this surprising new look at how clothing, style, and commerce came together to change American culture, Jennifer Le Zotte examines how secondhand goods sold at thrift stores, flea markets, and garage sales came to be both profitable and culturally influential. Initially, selling used goods in the United States was seen as a questionable enterprise focused largely on the poor. But as the twentieth century progressed, multimillion-dollar businesses like Goodwill Industries developed, catering not only to the needy but increasingly to well-off customers looking to make a statement.

Le Zotte traces the origins and meanings of "secondhand style" and explores how buying pre-owned goods went from a signifier of poverty to a declaration of rebellion. Considering buyers and sellers from across the political and economic spectrum, Le Zotte shows how conservative and progressive social activists--from religious and business leaders to anti-Vietnam protesters and drag queens--shrewdly used the exchange of secondhand goods for economic and political ends. At the same time, artists and performers, from Marcel Duchamp and Fanny Brice to Janis Joplin and Kurt Cobain, all helped make secondhand style a visual marker for youth in revolt.

A Historical Guide to North American Ski Mountaineering

Countering the Tiger Mother parenting style, this research-based, practical guide

provides an excellent framework for raising competent and compassionate children. In an era of helicopter parents and moms and dads who constantly hover over their children to monitor and manage their lives and our cultures focus on personal gain and corporate greed, there is great need for a parenting guide that outlines how to raise children who are well adjusted. A Practical Guide for Raising a Self-Directed and Caring Child fills that void. In response to Amy Chua's recent bestseller, *Battle Hymn of the Tiger Mother*, psychologist Louis J. Lichtman, PhD, presents a compelling case for the notion that children will be more successful if they are self-directed rather than parent-controlled. Through anecdotes and research studies, Lichtman illustrates how to build a child's self-esteem and

delves into how parenting styles and disciplinary practices influence a child's behavior and character. Lichtman also gives special attention to the topics of achievement, parenting during the adolescent years, and how family structure impacts children. In addition, Lichtman discusses how to avoid common parenting mistakes, issues to consider before deciding to become a parent, and how to give children the best possible start in life. Designed to help parents develop a set of guiding parenting principles, this guide is applicable to all situations and to children of all ages. *A Practical Guide for Raising a Self-Directed and Caring Child* offers a solid, comprehensive resource for today's parents.
