Mediterranean Protected Areas in the Era of Overtourism Haynes Manuals N. America, Incorporated

This book comprises studies that reflect on various influences of excessive tourism development in protected areas, and solutions designed and initiated to mitigate such challenges. A large proportion of tourism in Mediterranean destinations constitutes nature-based tourism, in particular, tourism in parks and protected areas. As a destination experiences higher intensity and density of tourism, the potential conflict between maintaining a healthy natural environment and economic development also increases. This has urged planners and decision-makers to devise and adopt innovative approaches that seek to strike a balance between tourism development and nature conservation. This book demonstrates the importance of collaboration across and beyond disciplines and of all groups of stakeholders for maximization of societal impacts and tourism-related benefits.

Snowmobiling and Ski Touring Trail Manual Springer Nature

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom

textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. The previously untold story of the Zenith Trans-Oceanic, the world's most romantic and expensive series of portable radios, now in a newly revised & expanded edition. Long a companion of kings, presidents, transoceanic yachtsmen and world explorers, the Trans-Oceanic was also carried into battle by American troops in three wars. Its great popularity in spite of a very high price can be laid at the feet of several generations of armchair travelers who used the shortwave capabilities of the Trans-Oceanic as a window on the world. With access to the Zenith corporate archives and their long experience as radio enthusiasts and writers for both the popular and scholarly press, Professors Bryant and Cones present the engrossing stories of the development and use of the Trans-Oceanic throughout its forty year life. They present a wealth of never-before published photographs, documents and information concerning these fascinating radios, their collection, preservation and restoration.

ROAR!!! Meet Bash the Lion - a playful Lion who loves to learn. Your toddler will enjoy going on learning hunts with Bash as they explore their first numbers. All Bash the Lion My First books are wonderfully put together along with activities that will help your child expand their recognition of items, as well as their vocabulary and pronunciation. Unlike typical picture books (that only display pictures with the names of the objects), Bash the Lion My First books include the 7 different learning concepts (visual, kinesthetic/physical, aural/auditory, social, solitary, verbal and logical) to foster a curiosity in your toddler that will plant the seeds for further reading and learning. We are self-publishers, literally a "mom and pop", so we hope you enjoy our labor of love as we did with our little one.
