GOD is Jesus & Mahomad. God revealed to the author that now is the time to share and help explain this Revelation. It was initially revealed to author, Bryan Foster, in the early morning on 28th, May 2016 while camping on the plains of Mt Warning in Murwillumbah. This is the fifth book published in the 'GOD Today' Series. It highlights three Revelations from God that you will love or hate. Key concepts covered in this book's series of articles are: God/Allah is Jesus & Mahomad; the Truth was revealed by God through 21 Revelations received by the author in 2016 and November, 2018; the various Revelations not explained in the

---

first four books are explained now; the prophecy of the author and Tears from God help prove the Incarnations of God as Jesus and Mahomad. God needs the religious leaders, scriptural scholars, theologians, etc., from both Islam and Christianity to explain these Revelations as each applies to them. Other religions should also be included through the offer to become an integral part of God's place in today's world by helping with the explanations, and the theology of One God only, the same God, for all time etc.. Book 4, primarily a photobook companion for Book 3, helps the reader appreciate the Truth from God through some spectacular and original images of the sun's rays, flares, clouds and a double rainbow. Many manifesting as sun arrows, flares and a giant Easter Cross. The author believes that these are shared by God to help both the author and readers alike believe in their accuracy, through the Revelations, images and explanations. The final two books in this Series of seven are about LOVE in our world and

ABSOLUTE LOVE from God for each one of us throughout history and into the future until the end of time. GOD LOVES each of us equally and encourages us all to live a life in strong relationships with God and our neighbours throughout the world past, present and future.

*Computational Forensics* Luminis Books Incorporated

FINALLY...a proven system that works! Knowing about these frustrations, one of the world's most respected dating coaches (and gentleman), Derek Cajun, took the task of developing a system that he could teach to any man to succeed online. ---

revolutionized the way men meet women in nightclubs, shopping malls, coffee shops and social circles. Now we're bringing those cutting-edge techniques to the world of dating sites and Facebook. The techniques in the course are easy-to-learn and will give you immediate results and put you in the 5% of men who get all the dates!

*Skype for Business 2016: A Guide for Beginners*  
O'Reilly Media

The Internet is almost synonymous with change--that's one of its charms, and one of its headaches. You may think you know the Internet, but are you really up to speed on internet telephones, movie and TV downloading, blogging, gaming, online banking, dating, and photosharing? This utterly current book covers: Getting Online.

Readers will have all the information they need to decide what kind of broadband connection works best for them, which browser they should use, and what kind of spyware-fighting and virus-and spam-protection measures they need to protect themselves. Finding Information. Google may be the leading search site, but it's certainly not the only game in town. This book introduces a diverse and useful collection of sites that help uncover everything from health care information, to shopping, travel and finance, to dependable reviews and ratings. Movies, music, and photos. The Web's teeming with entertainment--and not just the sort of postage-stamp sized videos that only a geek could love. Learn where to download

---

movies, watch TV online, listen to music, play games, and post and share photos with friends. Keeping in touch. Email's only the beginning. This book introduces readers to the many tools that make the modern Internet such a great way to stay connected. From Web-based discussion groups to instant messaging programs, and from blogs and podcasts to Internet-based phone calls, this book will help you join the conversation. Ideal for anyone just venturing into cyberspace, this book is also perfect for more experienced users who could use an update to today's most exciting internet applications.

*Full Committee Hearing on the Impact of the 700 Megahertz Wireless Spectrum Auction on Small Business* "O'Reilly Media, Inc."

What makes Windows refugees decide to get a Mac? Pogue—author of OS X Yosemite: The Missing Enthusiastic friends? The Apple Stores? Great-looking laptops? A "halo effect" from the popularity of iPhones and iPads? The absence of viruses and spyware? The freedom to run Windows on a Mac? In any case, there's never been a better time to switch to OS X—and there's never been a better, more authoritative book to help you do it. The important stuff you need to know: Transfer your stuff. Moving files from a PC to a Mac by cable, network, or disk is the easy part. But how do you extract your email, address book, calendar, Web bookmarks, buddy list, desktop pictures, and MP3 files? Now you'll know. Recreate your software suite. Many of the PC programs you've been using are Windows-only. Discover the Mac equivalents and learn how to move data to them. Learn Yosemite. Apple's latest operating system is faster, smarter, and more in tune with iPads and iPhones. If Yosemite has it, this book covers it. Get the expert view. Learn from Missing Manuals creator David

Manual, the #1 bestselling Mac book on earth. **A Simple Guide to Skype** Red Wheel/Weiser If you've heard about Skype--and who hasn't with all the recent media attention devoted to internet telephone services--chances are you've been mighty tempted to try it out. Skype Hacks tells you what all the Skype hype is about, explains the basics, and shows you more than 100 clever tips and tricks for tweaking and tuning Skype to make it do just what you want and more. Millions of people (48 million and counting, in fact) have opted for Skype, which uses peer-to-peer (P2P) technology to turn any PC, Mac, or Pocket PC into a telephone. Skype offers free calls between computers and extremely cheap calls to "old-fashioned" phone numbers (landlines and mobile phones). The sound quality is excellent, and end-to-end

---

encryption means the connection is private and secure. But if you really know what you're doing, Skype can accomplish a whole lot more than that. Software developer and author Andrew Sheppard recently converted his entire house to Skype and uses it for all his personal and business calls, even when he's traveling. In *Skype Hacks*, he shows you how to do things with the technology that even the engineers at Skype probably never intended. *Skype Hacks* shows you how to: Get started with Skype Figure out how much money you're saving and maximize your savings Cut the ties to your old phone company Optimize your Skype configuration Integrate Skype with desktop tools like Microsoft Office and your web browser Set up a Skype-based call center The book offers ideas for creating and organizing a contacts list, using Skype to transfer files,

taking advantage of chat and voicemail capabilities, turning a PDA into a mobile phone, and automating Skype for even greater efficiency. So whether you'd simply like to give Skype a trial run, you want new Skype ring tones and fun on-hold music, or you're considering wiring your home with Skype to get rid of "regular" phone service altogether, *Skype Hacks* is your ideal guide.

[Switching to the Mac: The Missing Manual, Mavericks Edition](#) Createspace Independent Publishing Platform

This book is for system administrators and security professionals who need to bring now ubiquitous IM and P2P applications under their control. Many businesses are now taking advantage of the speed and efficiency offered by both IM and P2P

---

applications, yet are completely ill-equipped to deal with the management and security ramifications. These companies are now finding out the hard way that these applications which have infiltrated their networks are now the prime targets for malicious network traffic. This book will provide specific information for IT professionals to protect themselves from these vulnerabilities at both the network and application layers by identifying and blocking this malicious traffic. \* A recent study by the Yankee group ranked "managing and securing IM and P2P applications" as the #3 priority for IT managers in 2004 \* The recently updated SANS/FBI top 10 list of vulnerabilities for computers running Microsoft Windows contained both P2P and IM applications for the first time \* The recently released Symantec Threat Assessment report for the first half of 2004 showed that 19 of the top 50 virus threats targeted IM or P2P applications. Despite the prevalence of IM and P2P applications on corporate networks and the risks they pose, there are no other books covering these topics
