College Accounting [kit] : a Practical Approach, Canadian Seventh Edition, Jeffrey Slater, Brian Zwicker. Solutions Acetates Sydney University Press

Published between 1965 and 1985 the papers in this collection address the problem of using accounting data to estimate the economic rate of return. The search for a solution to this problem has been an important episode in the history of accounting thought. The papers reprinted in this volume are the foundation of this intellectual effort. Ten articles and six notes and comments are reprinted here. Seven of the papers were published in UK journals and the rest in US publications. Bringing them together in one book will facilitate research on this important subject.

Standard Encyclopædia of Procedure ... Prentice Hall During the 1960s and 1970s a remarkable series of books was produced by academic staff in the field of accounting at the University of Sydney. It was a period when academic research was largely analytical rather than empirically-based. For the most part, the interests of academics at Sydney were largely directed at questioning the status quo - either in the way accounting or auditing was practiced, or in the conventional wisdom expressed in textbooks of the time. The Sydney Accounting Classics series reflects the diversity of interests of the 'Sydney school' at that time. It also recognises the tremendous impact of the foundation professor of accounting, R.J. Chambers. This reprint series ensures that the ideas developed during this period remain available to new generations of scholars and researchers. The Sydney Accounting Classics series is an initiative of the Accounting Foundation, in association with Sydney University Press. Accounting for Common Costs: The editor of the 1978 edition called this a 'seminal work ... in one of the

most difficult allocation problems in accounting'. Accounting for Common Costs contains a comprehensive historical study of the allocation of costs in accounting practice, as well as discussion of points of difference and the need to promote economic efficiency.
